Twentieth-century Italian Literature in English Translation Robin Healey,1998-01-01 This bibliography lists English language translations of twentieth century Italian literature published chiefly in book form between 1929 and 1997 encompassing fiction poetry plays screenplays librettos journals and diaries and correspondence Eaten Alive! Jay Slater,2002 From the 1970s to the 1990s Italian moviemakers produced the goriest exploitation films ever made using recurring plot devices of cannibalism and putrefied zombie flesh eaters Eaten Alive dissects this outrageous period setting it within its cultural and cinematic context With an introduction explaining the origins of the gruesome genre the book charts every bloody step from the renowned Pasolini who employed cannibalism as a satirical metaphor to shocking documentaries such as Cannibal Holocaust an acknowledged influence on The Blair Witch Project Informed irreverent contributions from legends of the modern horror scene round out this fascinating book **Intimate Voices: Shostakovich to the avant-garde. Dmitri Shostakovich : the string quartets** Evan Allan Jones,2009 This volume discusses composers such as Shostakovich Britten Cage and Babbitt in the context of the string quartet It offers the observations and intuitions of 20 leading authorities on quartets **Identity, Interest and Action** Erik Ringmar,1996-10-03 This book offers an original combination of cultural and narrative theory with an empirical study of identity and political action It is at once a powerful critique of rational choice theories of action and a solution to the historiographical puzzle of why Sweden went to war in 1630 Erik Ringmar argues that people act not only for reasons of interest but also for reasons of identity and that the latter are in fact more fundamental Deploying his alternative non rational theory of action in his account of the Swedish intervention in the Thirty Years War he shows it to have been an attempt on behalf of the Swedish leaders to gain recognition for themselves and their country Further to this he demonstrates the importance of questions of identity to the study of war and of narrative theories of action to the social sciences in general Encounter ,1988 **Encounter** Stephen Spender,Irving Kristol,Melvin J. Lasky,1988 Reading the Ruins Leo Mellor,2011-09-15 From fires to ghosts and from flowers to surrealist apparitions the bombsites of London were both unsettling and inspiring terrains Yet throughout the years prior to the Second World War British culture was already filled with ruins and fragments They appeared as content with visions of tottering towers and scraps of paper and also as form in the shapes of broken poetics But from the outbreak of the Second World War what had been an aesthetic mode began to resemble a proleptic template During that conflict many modernist writers such as Graham Greene Louis MacNeice David Jones J F Hendry Elizabeth Bowen T S Eliot and Rose Macaulay engaged with devastated cityscapes and the altered lives of a nation at war To understand the potency of the bombsites both in the Second World War and after Reading the Ruins brings together poetry novels and short stories as well as film and visual art Fire in My Bones Glenn Hinson,2010-11-24 Glenn Hinson focuses on a single gospel program and offers a major contribution to our understanding not just of gospel but of the nature of religious experience A key feature of African American performance

is the layering of performative voices and the constant shifting of performative focus To capture this layering Hinson demonstrates how all the parts of the gospel program work together to shape a single whole joining speech and song performer and audience testimony prayer preaching and singing into a seamless and multifaceted service of worship Personal stories ground the discussion at every turn while experiential testimony fuels the unfolding arguments Fire in My Bones is an original exploration of experience and belief in a community of African American Christians but it is also an exploration of African American aesthetics the study of belief and the ethnographic enterprise **Music, Encounter, Togetherness** Nicholas Cook, 2024-04-23 Modern Western musical thought tends to represent music as a thing a pattern a structure even an organism than as a human practice Music Encounter Togetherness focusses on music as something people do as a mode of encounter between individuals and cultures and as an agent of interpersonal and social togetherness It presents music as a utopian dimension of everyday life Italian Literature since 1900 in English Translation Robin Healey, 2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin Healey s Italian Literature before 1900 in English Translation also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature
