EXCERPT There are several reasons why I chose to start the book on this side of Mont Blanc This part of the Massif generally gets snow early in the season and you get a real sense of its majesty and grandeur from this its west side I hope that the skiers and boarders who read this book will understand and agree with this choice If not well it will give them something to talk about during the long winter evenings in the numerous mountain huts around the Mont Blanc Massif *Le Tour - Mont Blanc and the Aiguilles Rouges - a Guide for Skiers* Anselme Baud, 2015-03-04

training in Bolivia and Nepal EXCERPT The Le Tour ski station is served by the Charamillon col de Balme lift systems The skiing here is accessible user friendly and good for all the family For the more committed off piste skier there is also the descent to Les Jours in Switzerland on the north face above Vallorcine However as with any area at the head of a valley Le Tour is subject to frequent changes in the air currents and you should be aware of what they are doing if you are planning to ski the routes here In fact although Le Tour has an image as an area for relatively easy moyenne montagne skiing you should not underestimate the ever present risks The accumulation of snow that occurs as a direct result of these specific conditions is responsible each year for a number of accidents and avalanches The high mountains that overlook this mixture of forests and pastures form the eastern extremity of the Mont Blanc Massif and it has been quite calm here since the snout of the glacier avalanched

EXCERPT The Aiguilles Rouges chain could have suffered from being so close to its illustrious neighbour the Mont Blanc Massif but in fact the huge variety of routes on offer here means that the two ranges complement each other. From easy tours to narrow couloirs from routes with easy access from ski lifts to numerous possible traverses the Aiguilles Rouges is an integral part of the Mont Blanc region. Thanks to this ease of access and the great circuits that can be done in this area this is also the starting point for trips heading north to Sixt, Flaine and Les Portes du Soleil or to the east and Switzerland to the high limestone Alps via the Col de la Tour Salire and the Barberine cols not forgetting of course the great routes on the Bel Oiseau, the Dent de Fenestral or Fontanabran between Finhaut and Les Mar cottes. Moreover this chain of crystalline rock gneiss also offers superb views of the whole of the Mont Blanc Massif which are both breathtakingly beautiful and more importantly are a great opportunity for getting a look at routes for the future. The other advantage the Aiguilles Rouges has is that you can easily choose the best side of the chain to ski on as the ski lifts and the pistes are all on the south side and the best descents are to be had on the wild north side where the snow stays in excellent condition for a

long time The secondary ranges of the Perrons and Luisin Emaney don t have ski lifts and usually get skied at the beginning of the season for road access to the Emosson Dam as the snow cover is general better here the area is near the very wet valleys of Haut Faucigny **Western Snowmobile Trail Guide** Dennis Bleything,Life Support Technology, Inc,1971
