midwestern town during the 1960s Targeted by school bullies and dismissed by many of her teachers she worried that people  
would find out the truth that she was INTF Incompetent Nerd Terrified Failure This feeling stayed with her well into her  
twenties when she was told that girls can t do science or women just don t know how to handle machines Yet in the span of  
just six years Cecilia became the first Latina pilot to secure a place on the United States Unlimited Aerobatic Team and earn

mathematical techniques to overcome her fear Cecilia performed at air shows in front of millions of people She jumped out of  
airplanes and taught others how to fly She learned how to fund raise and earn money to compete at the world level She  
worked as a test pilot and contributed to the design of experimental airplanes crafting curves of metal and fabric that shaped  
air to lift inanimate objects high above the earth And best of all she surprised everyone by overcoming the prejudices people  
held about her because of her race and her gender Flying Free is the story of how Cecilia Aragon broke free from  
expectations and rose above her own limits by combining her passion for flying with math and logic in unexpected ways You  
don t have to be a math whiz or a science geek to learn from her story You just have to want to soar      **Sparknotes SAT**
