

TEILHARD'S VISION OF THE PAST

The Making of
a Method

ROBERT J. O'CONNELL, S.J.

Teilhard's Vision Of The Past The Making Of A Method

Puja Mehta

Teilhard's Vision Of The Past The Making Of A Method:

Teilhard's Vision of the Past Robert J. O'Connell, 2022 The Phenomenon of Man by Pierre Teilhard de Chardin has been characterized as metaphysics poetry and mysticism virtually everything except what its author claimed it was a purely scientific memoir Professor O'Connell here follows up on a nest of clues uncovered first in an early unpublished essay then in the series of essays contained principally in *The Vision of the Past* Those clues all point to Teilhard's intimate familiarity with the philosophy of science propounded by the celebrated Pierre Duhem It was Duhem's central claim that science to remain true to itself must aim at establishing a genuine natural classification phenomenal reality That insight Professor O'Connell argues guided Teilhard's lifelong effort to describe the imposed reality factors which science in its variety of forms suggests as ingredients and operative at every phase in the evolutionary development of planet Earth Limiting his focus to the way Teilhard unfolded his vision of the past Professor O'Connell concludes that those who deprecate Teilhard as unscientific betray little awareness of how sophisticated his understanding of science truly was *The Phenomenon of Teilhard* David H. Lane, 1996 New Age writer of the popular *Aquarian Conspiracy* Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard's New Age enterprise In a highly documented and insightful scrutiny of Teilhard's cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print ***The Unbearable Wholeness of Being*** Ilia Delio, 2013 This title explores the meaning of Christian theology in light of the scientific discoveries of our age Like Teilhard de Chardin and Thomas Berry Delio opens out eyes to the omni active all powerful all intelligent Love that forms and guides the interrelatedness and interbeing of everything and everyone ourselves included *From Teilhard to Omega* Ilia Delio, 2014-01-09 Thirteen scholars including John F Haught Ursula King and John C Haughey SJ take off from where Teilhard de Chardin left off opening new windows to the divine mystery to the evolving person and to the new energies of love needed for the forward movement of life ***Astrophilosophy, Exotheology, and Cosmic Religion*** Andrew M. Davis, Roland Faber, 2024-01-22 Astrophilosophy Exotheology and Cosmic Religion Extraterrestrial Life in a Process Universe applies Alfred North Whitehead's process philosophy and the associated process philosophies of Henri Bergson Teilhard de Chardin and others to the interdisciplinary layers of astrobiology extraterrestrial life and the impact of discovery This collection edited by Andrew M

Davis and Roland Faber asks questions such as How have process thinkers imagined universal creative evolution and its implications for philosophies theologies and religions beyond earth and How might their claims as to the primacy of organism temporality novelty value and mind enrich current discussions and debates across disciplines As experts in their fields the contributors are informed by but not limited to process conceptualities The chapters not only advance recent discussions in astrobiology cosmology and evolution but also consider a constellation of philosophical topics from shared extraterrestrial knowledge and values to the possibilities or limitations afforded by A I technology the Fermi Paradox the Drake Equation and the increasing need to nurture the cosmic dimensions of theological and religious traditions **Science, Religion and**

Deep Time Lowell Gustafson, Barry Rodrigue, David Blanks, 2022-07-05 This book examines the meaning of religion within the scientific evidence based history of our known past since the big bang While our current major religions are only centuries or millennia old our volume discusses the origins and development of human religious practice and belief over our species existence of 300 000 years The volume also connects the scientific approach to natural and social history with ancient truths of our religious ancestors using new lines of inquiry new technologies new modes of expression and new concepts It brings together insights of natural scientists social scientists philosophers writers and theologians to discuss narratives of the universe The essays discuss that to apprehend religion scientifically or to interpret and explain science theologically the subject must be examined through a variety of disciplinary lenses simultaneously and raise several theoretical philosophical and moral problems With a singular investigation into the meaning of religion in the context of the 13.8 billion year history of our universe this book will be indispensable for scholars and students of religious studies big history sociology and social anthropology philosophy and science and technology studies **The Teilhard Review and**

Journal of Creative Evolution ,1982 *The Cosmic Vision of Teilhard de Chardin* Haught, John F. ,2021-12-15 Brings the thought and theology of Teilhard de Chardin into conversation with other significant religious thinkers philosophers and scientists **Religious Transhumanism and Its Critics** Arvin M. Gouw, Brian Patrick Green, Ted Peters, 2022-03-10 Why

do representatives of different religious traditions find the transhumanist vision of the future not only theologically compatible but even inspiring Transhumanism is a global movement seeking radical human enhancement The trans in transhumanism marks the transition from the present stage in human evolution into the future namely post human existence Containing chapters written by adherents to a variety of religious traditions *Religious Transhumanism and Its Critics* provides first hand testimony to the value of the transhumanist vision perceived by the religious mind In addition the contributors critique both secular and religious transhumanism in light of realistic science and commitment to social justice

Re-Enchanting the Earth Delio, Ilia ,2020-09-16 Artificial Intelligence AI the new frontier of human evolution holds the promise of reuniting religion and science

The Enigmatic Realm of **Teilhards Vision Of The Past The Making Of A Method**: Unleashing the Language is Inner Magic
