Telling Complexions The Nineteenth Century English Novel And The Blush:

Telling Complexions Mary Ann O'Farrell, 1997 In *Telling Complexions* Mary Ann O'Farrell explores the frequent use of the blush in Victorian novels as a sign of characters inner emotions and desires Through lively and textured readings of works by such writers as Jane Austen Elizabeth Gaskell Charles Dickens and Henry James O'Farrell illuminates literature's relation to the body and the body's place in culture In the process she plots a trajectory for the nineteenth century novel's shift from the practices of manners to the mode of self consciousness Although the blush was used to tell the truth of character and body O'Farrell shows how it is actually undermined as a stable indicator of character in novels such as *Pride and Prejudice* *Persuasion* *North and South* and *David Copperfield* She reveals how these writers then moved on in search of other bodily indicators of mortification and desire among them the swoon the scar and the blunder Providing unique and creative insights into the constructedness of the body and its semiotic play in literature and in culture *Telling Complexions* includes parallel examples of the blush in contemporary culture and describes ways that textualized bodies are sometimes imagined to resist the constraints imposed by such construction

Theater Figures Emily Allen, 2003 Why did nineteenth century novels return over again to the scene of theater Emily Allen argues that theater provided nineteenth century novelists and critics with a generic figure that allowed them to position particular novels and novelistic genres within a complex literary field Novel genres high and low male and female public and private realistic and romantic all came to identify themselves within a set of coordinates that included if only for the purpose of exclusion the spectacular figure of theater This figure likewise provided a trope around and against which to construct images of readers and authors images that most frequently worked to mediate between the supposedly private acts of reading and writing and the very public facts of the print market In readings of novels by Burney Austen Scott Dickens Jewsbury Flaubert Braddon and Moore Allen shows how frequently theater appears as figure in novels of the nineteenth century and how theater figures actively and importantly in what we have come to look back on as the history of the nineteenth century novel *Theater Figures* thus offers a new model for thinking about how theater helped produce changes in the nineteenth century literary market While previous critics have considered theater as an enabling foil for the novel either a constitutive opposite or constructive ally Allen demonstrates how theater figures and tropes were used to negotiate competition among the novels and novelists eagerly seeking their share of the literary limelight

The Cambridge Companion to the Victorian Novel Deirdre David, 2001 In *The Cambridge Companion to the Victorian Novel* first published in 2000 a series of specially commissioned essays examine the work of Charles Dickens the Brontës George Eliot and other canonical writers as well as that of such writers as Olive Schreiner Wilkie Collins and H Rider Haggard whose work has recently attracted new attention from scholars and students The collection combines the literary study of the novel as a form with analysis of the material aspects of its readership and production and a series of thematic and contextual perspectives that examine Victorian fiction in the light of social and cultural concerns

relevant both to the period itself and to the direction of current literary and cultural studies Contributors engage with topics such as industrial culture religion and science and the broader issues of the politics of gender sexuality and race The Companion includes a chronology and a comprehensive guide to further reading

Narratives of Women's Health and Hysteria in the Nineteenth-Century Novel Melissa Rampelli,2023-09-29 Narratives of Women s Health and Hysteria in the Nineteenth Century Novel looks extensively at hysteria discourse through medical and sociological texts and examines how this body of work intersects with important cultural debates to define women s social physical and mental health The book sketches out prominent shifts in cultural reactions to the idea of diffused agency and the prized model of the interiorized individual person capable of self will and governance Melissa Rampelli takes up the work of Jane Austen Charles Dickens George Eliot and Thomas Hardy showing how the authors play with and manipulate stock literary figures to contribute to this dialogue about the causes and cures of women s hysterical distress

The Socio-Literary Imaginary in 19th and 20th Century Britain Maria Bachman,Albert Pionke,2019-09-30 At once an invitation and a provocation The Socio Literary Imaginary represents the first collection of essays to illuminate the historically and intellectually complex relationship between literary studies and sociology in nineteenth and early twentieth century Britain During the ongoing emergence of what Thomas Carlyle in Signs of the Times 1829 pejoratively labeled a new Mechanical Age Britain s robust tradition of social thought was transformed by professionalization institutionalization and the birth of modern disciplinary fields Writers and thinkers most committed to an approach grounded in empirical data and inductive reasoning such as Harriet Martineau and John Stuart Mill positioned themselves in relation to French positivist Auguste Comte s recent neologism la sociologie Some Victorian and Edwardian novelists George Eliot and John Galsworthy among them became enthusiastic adopters of early sociological theory others including Charles Dickens and Ford Madox Ford more idiosyncratically both complemented and competed with the systems of society proposed by their social scientific contemporaries Chronologically bound within the period from the 1830s through the 1920s this volume expansively reconstructs their expansive if never collective efforts Individual essays focus on Comte Dickens Eliot Ford and Galsworthy as well as Friedrich Engels Elizabeth Gaskell G H Lewes Virginia Woolf and others The volume s introduction locates these author specific contributions in the context of both the international intellectual history of sociology in Britain through the First World War and the interanimating intersections of sociological and literary theory from the work of Hippolyte Taine in the 1860s through the successive linguistic and digital turns of the late twentieth and early twenty first centuries
