Neither southern nor northern Baltimore has charted its own course through the American experience The spires of the nation's first cathedral rose into its sky and the first blood of the Civil War fell on its streets Here enslaved Frederick Douglass toiled before fleeing to freedom and Billie Holiday learned to sing Baltimore's clippers plied the seven seas while its pioneering railroads opened the prairie West The city that birthed The Star Spangled Banner also gave us Babe Ruth and the bottle cap This guide navigates nearly three hundred years of colorful history from Johns Hopkins's earnest philanthropy to the raucous camp of John Waters and from modest row houses to the marbled mansions of the Gilded Age Let local authors Brennen Jensen and Tom Chalkley introduce you to Mencken's ancient and solid city cBack cover *The Girlfriend I Almost Lost* Lon R. Washington and Baltimore Art Deco Richard Striner, Melissa Blair, 2014-04-30 Art Deco buildings still lift their modernist principles and streamlined chrome into the skies of Baltimore and Washington, D.C. Second Place Winner of the Design and Effectiveness Award of the Washington Publishers. The bold lines and decorative details of Art Deco have stood the test of time since one of its first appearances in the International Exhibition of Modern Decorative and Industrial Arts in Paris in 1925. Reflecting the confidence of modern mentality, streamlined chrome and glossy black, along with simple elegance, sharp lines, and cosmopolitan aspirations, Art Deco carried surprises juxtaposing designs growing out of speed, racecars, and airplanes with ancient Egyptian and Mexican details, visual references to Russian ballet, and

allusions to Asian art While most often associated with such masterworks as New York's Chrysler Building Art Deco is evident in the architecture of many U.S. cities including Washington and Baltimore By updating the findings of two regional studies from the 1980s with new research Richard Striner and Melissa Blair explore the most significant Art Deco buildings still standing and mourn those that have been lost This comparative study illuminates contrasts between the white collar New Deal capital and the blue collar industrial port city while noting such striking commonalities as the regional patterns of Baltimore's John Jacob Zinc who designed Art Deco cinemas in both cities Uneven preservation efforts have allowed significant losses but surviving examples of Art Deco architecture include the Bank of America building in Baltimore now better known as 10 Light Street and the Uptown Theater on Connecticut Avenue NW in Washington Although possibly less glamorous or flamboyant than exemplars in New York or Miami the authors find these structures along with apartment houses and government buildings typical of the Deco architecture found throughout the United States and well worth preserving Demonstrating how an international design movement found its way into ordinary places this study will appeal to architectural historians as well as regional residents interested in developing a greater appreciation of Art Deco architecture in the mid Atlantic region
