The Female:

The Female Performer between Exhibitionism and Feminism in Novels by James, Hawthorne, and Zola Nodhar Hammami Ben Fradj, 2021-03-11 This book is concerned with the figure of the female performer in nineteenth century fiction. It explores the attitudes of Henry James, Nathaniel Hawthorne and Emile Zola towards women's appearances on political daises and theatrical stages. Literature as a cultural force can either boost women's participation in public life or bolster the patriarchal ideology. The book verifies Henry James's feminist ideology that lies behind the positive representation of women's political activism and acting as two different modes of performance through a comparative study between him and two of his contemporary novelists. It reflects the clash of opinions among nineteenth century American and French authors on the issue of women's public manifestation as caught between the spectacular and the political. While some writers have deemed it an exhibitionist demeanour, others have considered it a commitment to the feminist project. The first section shows how a feminist reading in the history of European and American female performers as emerging figures in the nineteenth century can help to understand the position of the figure in the literary works of the period. Nathaniel Hawthorne is shown to be an author who holds the same feminist temperament as James through his portrayal of a talented political rhetorician in his novel *The Blithedale Romance*, which is compared to James's *The Bostonians* in the second section. The final part conducts a study in contrasts between James's supportive rendering of the actress in *The Tragic Muse* and Emile Zola's derogatory stereotyping of the female performer as a prostitute in his novel *Nana*. *The Female Man* Joanna Russ, 1986 The lives of Joanna and Jeannine interact with the world of Janet Evason after the female man from a planet of the future arrives in New York City. *The Female Mentor: Or, Select Conversations. Edited by Mrs. E. H. Coxe. Third Edition* E. H. COXE, 1838

The Feminist Economics of Trade Irene van Staveren, Diane Elson, Caren Grown, Nilufer Cagatay, 2012-08-06 Unravelling the complex relationship between gender inequality and trade, this is the first book to combine the tools of economic and gender analysis to examine the relationship between international trade and gender relations. It brings together fourteen contributions from a variety of economic perspectives including structuralist, institutionalist, neoclassical and Post Keynesian by a range of authors including Lourdes Bener, a William Darity, Marzia Fontana and Mariama Williams to demonstrate what feminist economics has contributed to the analysis of international trade through theoretical modelling, econometric analysis and policy oriented contributions. It includes evidence from industrialized, semi industrialized and agrarian economies using country case studies and cross country analysis. Arguing that trade expansion and reduction of gender inequality can be combined but only if an appropriate mix and sequence of trade and other economic policies is implemented, this book is key reading for all students of international economics, gender and cultural studies and politics and international relations amongst other disciplines. **Political Women** Michele Lockhart, Kathleen Mollick, 2013-09-25 This collection examines the ways in which women have used political rhetoric and political discourse to provide leadership or assert their right to

British Experimental Women's Fiction, 1945—1975 Andrew Radford, Hannah Van Hove, 2021-08-23 This book scrutinizes a range of relatively overlooked post WWII British women writers who sought to demonstrate that narrative prose fiction offered rich possibilities for aesthetic innovation What unites all the primary authors in this volume is a commitment to challenging the tenets of British mimetic realism as a literary and historical phenomenon This collection reassesses how British female novelists operated in relation to transnational vanguard networking clusters debates and tendencies both political and artistic The chapters collected in this volume enquire for example whether there is something fundamentally different or politically dissident about female experimental procedures and perspectives This book also investigates the processes of canon formation asking why in one way or another these authors have been sidelined or misconstrued by recent scholarship Ultimately it seeks to refine a new research archive on mid century British fiction by female novelists at least as diverse as recent and longer established work in the domain of modernist studies

This title will be of particular interest to students of sociology and criminology *Poe and Women* Amy Branam Armiento, Travis Montgomery, 2023-02-15 Edgar Allan Poe notoriously identified the death of a beautiful woman as the most poetical topic in the world. Despite this cringeworthy claim, it is widely known that Poe drew creative inspiration from female authors and that women figure prominently among the artists and critics fascinated by the writer's creative legacy. Filling a major gap in scholarship on Poe, this volume investigates the varied ways that women have influenced perceptions of Poe through biography, criticism, editorial work, and creative adaptation. Covering a timeframe from the mid-nineteenth century to the present, *Poe and Women* addresses a range of topics, including accounts of Poe written by female contemporaries, the scholarly efforts of women in establishing Poe's worldwide reputation, and the revision of antebellum gender constructs in popular adaptations of Poe's work. This collection will appeal not only to Poe specialists but also to anyone interested in the writer's ongoing relevance to gender discussions inside and outside the academy.
