The Fifties Photographs Of America:

The Fifties Eve Arnold, Magnum Photos, Inc. Staff, 1985 A collection of black white photographs showing life in the US during the decade of the 1950 s **The 1950s Decade in Photos** Jim Corrigan, 2010-01-01 Describes the important world national and cultural developments of the decade 1950 1959 [American Culture in the 1950s](#) Martin Halliwell, 2007-03-13 This book provides a stimulating account of the dominant cultural forms of 1950s America fiction and poetry theatre and performance film and television music and radio and the visual arts Through detailed commentary and focused case studies of influential texts and events from Invisible Man to West Side Story from Disneyland to the Seattle World s Fair from Rear Window to The Americans the book examines the way in which modernism and the cold war offer two frames of reference for understanding the trajectory of postwar culture The two core aims of this volume are to chart the changing complexion of American culture in the years following World War II and to provide readers with a critical investigation of the 1950s The book provides an intellectual context for approaching 1950s American culture and considers the historical impact of the decade on recent social and cultural developments **The Tumultuous Fifties** New York Times Photo Archives, Douglas Dreishpoon, Alan Trachtenberg, Luc Sante, Nancy Weinstock, 2001-01-01 A collection of two hundred duotone photographs from the New York Times which capture the spirit of the United States in the 1950s **American Life in the 1950s** Donna B. McKinney, 2023-08-01 American Life in the 1950s takes a look at the major events that occurred throughout this decade and offers information on the demographics of the United States at the time Readers will gain an understanding of the politics conflicts science inventions pop culture fashion and sports of the decade and they will learn about the legacy the 1950s left behind Features include a glossary a timeline references websites source notes and an index Aligned to Common Core Standards and correlated to state standards Essential Library is an imprint of Abdo Publishing a division of ABDO

Great American Film Directors in Photographs Richard Koszarski, 1984-01-01 Shows nearly two hundred directors from D W Griffith to Alfred Hitchcock and Steven Spielberg at work making movies [The 1950s](#) Stephen Feinstein, 2015-07-15 During the 1950s the United States became a world leader in business technology and health care The invention of the polio vaccine and the establishment of NASA set the stage for scientific advancement Rosa Parks refused to give up her bus seat spurring the civil rights movement However US troops fought to a deadlock in Korea the Soviet Union took an early lead in the Space Race and Americans worried about the presence of Soviet spies Social mores were being tested by new thinking new music and new idols The 1950s would prove to be a decade that would reimagine pop culture the new normal and the American Dream **America Worked** William A. Ewing, Dan Weiner, 1989 A collection of photographs on the United States during the 1950s from the work of one of the best photojournalists of the time **Library of Congress Magazine** , 2016 **The Proud Decades** John P. Diggins, 1988 What happens when public figures private selves are put forth for examination by public audiences How do the personal struggles of music artists specifically those with immigrant

backgrounds compare to the private struggles of other individuals At a time when many countries in the European Union experience an increase in far right political party activities how do individuals from the margins negotiate new ways of thinking about identity offering hope for greater understanding of shared struggles across societies This book offers interpretations of identity and belonging by examining the work of two music artists Faudel Belloua from France and Adam Tensta from Sweden By analyzing texts produced by these individuals I argue that ongoing engagement with the materials produced by Belloua and Tensta a process which I refer to as living biography presents a unique window into the process of how Belloua and Tensta connect personal struggles to public issues providing a compelling departure point for further discussions on how interpretations of national identity are changing in France and Sweden and beyond
