The Fifties Revisited An Aerobiography:

The Black Panther Party (reconsidered) Charles Earl Jones, 1998 This new collection of essays contributed by scholars and former Panthers is a ground breaking work that offers thought provoking and pertinent observations about the many facets of the Party By placing the perspectives of participants and scholars side by side Dr Jones presents an insider view and initiates a vital dialogue that is absent from most historical studies *Marion Mahony Reconsidered* David Van Zanten, 2011-07 Marion Mahony Griffin 1871 1961 was an American architect and artist one of the first licensed female architects in the world designer for Frank Lloyd Wright's Chicago studio and an original member of the Prairie School of architecture Largely heralded for her exquisite presentation drawings for both Wright and her husband Walter Burley Griffin Mahony was an adventurous designer in her own right whose independent and highly original work attracted attention at a moment when architectural drawing and graphic illustration were becoming integral to the design process This book examines new research into Mahony's life and paints a vivid portrait of a woman's place among the lives and productions of some of our most noted American architects The essays included take us on an ambitious journey from Mahony's origins in the Chicago suburbs through her years as Wright's right hand woman and her bohemian life with her husband in Australia whose new capital city Canberra she helped to plan up until her golden years in the middle of the twentieth century Filled with richly detailed analyses of Mahony's works and including and populated by an international cast of characters *Marion Mahony Reconsidered* greatly expands our knowledge of this talented complex and enigmatic modern architect **The Rise of the Memoir** Alex Zwerdling, 2017 The Rise of the Memoir traces the growth and extraordinarily wide appeal of the memoir Its territory is private rather than public life shame guilt and embarrassment not the achievements celebrated in the public record What accounts for the sharp need writers like Rousseau Woolf Orwell Nabokov Primo Levi and Maxine Hong Kingston felt to write and to publish such works when they might more easily have chosen to remain silent Alex Zwerdling explores why each of these writers felt compelled to write them as that story can be reconstructed from personal materials available in archival collections what internal conflicts they encountered while trying and how each of them resisted the private and public pressures to stop themselves rather than pursuing this confessional route against their own doubts without a reasonable expectation that such works would be welcome in print and eventually find an empathetic audience Reconstructing this process in which a dubious project eventually becomes a compelling product a memoir that will last illuminates both what was at stake and why this serially invented open form has reshaped the expectations of readers who welcomed a vital alternative to the official story **A History of Irish Autobiography** Liam Harte, 2018-03-01 A History of Irish Autobiography is the first ever critical survey of autobiographical self representation in Ireland from its recoverable beginnings to the twenty first century The book draws on a wealth of original scholarship by leading experts to provide an authoritative examination of autobiographical writing in the English and Irish languages Beginning with a comprehensive

overview of autobiography theory and criticism in Ireland the History guides the reader through seventeen centuries of Irish achievement in autobiography a category that incorporates diverse literary forms from religious tracts and travelogues to letters diaries and online journals This ambitious book is rich in insight Chapters are structured around key subgenres themes texts and practitioners each featuring a guide to recommended further reading The volume s extensive coverage is complemented by a detailed chronology of Irish autobiography from the fifth century to the contemporary era the first of its kind to be published

The Movement Reconsidered Zachary Leader, 2009-05-07 The Movement was the preeminent poetical grouping of post war Britain This collection of original essays by distinguished poets critics and scholars from Britain and America provides new accounts not only of the best known of Movement writers Philip Larkin Kingsley Amis Thom Gunn and Donald Davie but of less familiar contemporaries

Ayodhya Revisited Kunal Kishore, 2016-01-01 This work of monumental research is a treatise on Ayodhya with utmost authenticity and absolute accuracy Based on original sources and scientific investigation it propounds a new thesis which demolishes many popular perceptions It exonerates the intrepid warrior Babur from the charge of demolishing a temple on the birthplace of R ma and constructing the mosque which has been a source of contention and dissension for long It further shows how inscriptions in the mosque were factitious and Mir Baqi of inscriptions is a fictitious person different from Baqi Tashkindi Shegawal of the Baburnama The book produces incontrovertible evidence which indubitably proves that there existed a R ma temple on the R majanmabhumī The exact birthplace of R ma was earmarked by a rectangular Bedi measuring 18 9 in length and 15 in width and was located in the inner portion of the disputed shrine The demolition of the temple and the construction of the mosque did not take place in 1528 A D but in c 1660 A D when Fedai Khan was the Governor of Aurangzeb at Ayodhya It is a historical fact that until the British takeover of Awadh administration in 1858 both the Hindus and Muslims used to perform puja and offer Namaz respectively inside it All Mughal Emperors from Babur to Shah Jahan were magnanimous and liberal rulers and the Bair g s of Ayodhya enjoyed patronage of the first four Nawabs of Awadh However during the long rule of Aurangzeb the country was engulfed in the fire of fanaticism It has been shown in this book how an absolutely unfounded rumour in 1855 A D that the Hanumangarhi temple was constructed on the site of a mosque created cleavage between the two communities and the resultant festering wounds have not healed despite best efforts by saner elements of both the communities The book exposes many eminent historians hypocrisy and their lack of objectivity in writing history and it may be said that their presentation of contrived history on Ayodhya has caused irreparable damage to the cause of harmonizing communal relations in the country In contrast this text earnestly tries to take away the toxin from the polluted body of Indian politics For the first time a number of unexplored documents have been incorporated in this book as evidence and it may be proclaimed with pride that this book contains much more information on Ayodhya than available hitherto Justice G B Patnaik a former Chief Justice of India after going through the manuscript has endorsed the author s thesis in his Foreword It is hoped that the book will put a
