The First Vietnam War:

The First Vietnam War Peter M. Dunn, 1985 **The First Vietnam War** Shawn F. McHale, 2021-08-26 Shawn McHale explores why the communist led resistance in Vietnam won the anticolonial war against France 1945-54 except in the south. He shows how broad swaths of Vietnamese people were uneasily united in 1945 under the Viet Minh Resistance banner all opposing the French attempt to reclaim control of the country. By 1947 resistance unity had shattered and Khmer Vietnamese ethnic violence had divided the Mekong delta. From this point on the war in the south turned into an overt civil war wrapped up in a war against France. Based on extensive archival research in four countries and in three languages this is the first substantive English language book focused on southern Vietnam's transition from colonialism to independence. [The First Vietnam War](#) Mark Atwood Lawrence, Fredrik Logevall, 2007-03-07 How did the conflict between Vietnamese nationalists and French colonial rulers erupt into a major Cold War struggle between communism and Western liberalism? To understand the course of the Vietnam wars it is essential to explore the connections between events within Vietnam and global geopolitical currents in the decade after the Second World War. In this illuminating work leading scholars examine various dimensions of the struggle between France and Vietnamese revolutionaries that began in 1945 and reached its climax at Dien Bien Phu. Several essays break new ground in the study of the Vietnamese revolution and the establishment of the political and military apparatus that successfully challenged both France and the United States. Other essays explore the roles of China, France, Great Britain and the United States, all of which contributed to the transformation of the conflict from a colonial skirmish to a Cold War crisis. Taken together the essays enable us to understand the origins of the later American war in Indochina by positioning Vietnam at the center of the grand clash between East and West and North and South in the middle years of the twentieth century. [The Road to Dien Bien Phu](#) Christopher Goscha, 2022-03-29 A multifaceted history of Ho Chi Minh's climactic victory over French colonial might that foreshadowed America's experience in Vietnam. On May 7, 1954, when the bullets stopped and the air stilled in Dien Bien Phu, there was no doubt that Vietnam could fight a mighty colonial power and win. After nearly a decade of struggle, a nation forged in the crucible of war had achieved a victory undreamed of by any other national liberation movement. *The Road to Dien Bien Phu* tells the story of how Ho Chi Minh turned a ragtag guerrilla army into a modern fighting force capable of bringing down the formidable French army. Taking readers from the outbreak of fighting in 1945 to the epic battle at Dien Bien Phu, Christopher Goscha shows how Ho transformed Vietnam from a decentralized guerrilla state based in the countryside to a single party communist state shaped by a specific form of War Communism. Goscha discusses how the Vietnamese operated both states through economics, trade, policing, information gathering, and communications technology. He challenges the wisdom of counterinsurgency methods developed by the French and still used by the Americans today and explains why the First Indochina War was arguably the most brutal war of decolonization in the twentieth century, killing a million Vietnamese, most of them civilians. Panoramic in scope, *The Road to*

Dien Bien Phu transforms our understanding of this conflict and the one the United States would later enter and sheds new light on communist warfare and statecraft in East Asia today China and the First Vietnam War, 1947-54 Laura M.

Calkins,2013-04-12 This book charts the development of the First Vietnam War the war between the Vietnamese Communists the Viet Minh and the French colonial power considering especially how relations between the Viet Minh and the Chinese Communists had a profound impact on the course of the war It shows how the Chinese provided finance training and weapons to the Viet Minh but how differences about strategy emerged particularly when China became involved in the Korean War and the subsequent peace negotiations when the need to placate the United States and to prevent US military involvement in Southeast Asia became a key concern for the Chinese The book shows how the Viet Minh strategy of all out war in the north and limited guerrilla warfare in the south developed from this situation and how the war then unfolded
