Sanders,2013-06-17 Continues and expands the intellectual exchange among researchers policy makers practitioners and concerned citizens on factors influencing the achievement of poor and minority youth specifically students in middle and high schools **The Cumulative Book Index** ,1900 A world list of books in the English language Tuition Rising Ronald G. Ehrenberg,2002-10-30 America s colleges and universities are the best in the world They are also the most expensive Tuition has risen faster than the rate of inflation for the past thirty years There is no indication that this trend will abate Ronald G Ehrenberg explores the causes of this tuition inflation drawing on his many years as a teacher and researcher of the economics of higher education and as a senior administrator at Cornell University Using incidents and examples from his own experience he discusses a wide range of topics including endowment policies admissions and financial aid policies the funding of research tenure and the end of mandatory retirement information technology libraries and distance learning student housing and intercollegiate athletics He shows that colleges and universities having multiple relatively independent constituencies suffer from ineffective central control of their costs And in a fascinating analysis of their response to the ratings published by magazines such as U S News World Report he shows how they engage in a dysfunctional competition for students In the short run colleges and universities have little need to worry about rising tuitions since the number of qualified students applying for entrance is rising even faster But in the long run it is not at all clear that the increases can be sustained Ehrenberg concludes by proposing a set of policies to slow the institutions rising tuitions without damaging their quality **The Publishers Weekly** ,1900 The ERIC Review ,1996 Provides information on programs research publications and services of ERIC as well as critical and current education information
