The Feminine In Jungian Psychology And In Christian Theology:

The Feminine in Jungian Psychology and in Christian Theology Ann Belford Ulanov, 1971 The Feminine in Jungian Psychology and in Christian Theology investigates the implications for Christian theology of Jung's special insights into the feminine In it Ann Belford Ulanov gathers together in one volume what Jung and Jungians have discovered about the feminine in order to explore what Jungian thought and methods may illuminate about the place of the feminine in Christian theology Jung focuses on the human person and sees as central its mixture of masculine and feminine elements In a time when so much is asserted and written about women in society their rights roles identities needs and contributions it is especially significant that Jung asserts the existence of the feminine as a key element not only in women but in men as well No less contested are the roles and identities of Christians Ulanov brings into focus the deep and fascinating connections between theology and psychology *The Feminine in Jungian Psychology and in Christian Theology* Ann Belford Ulanov, Carl Gustav Jung, 1973 *Receiving Woman - Studies in the Psychology and Theology of the Feminine* Ann Belford Ulanov, We live in a time of unparalleled opportunity for women and a time just because of that opportunity of great stress It is a time when every woman can find her own particular style to develop her skills to acknowledge her needs and failures and to claim both her satisfactions and dissatisfactions The old stereotypes are all but dead But another danger threatens of new stereotyped roles for women in the very range of choices and opportunities presented to the RECEIVING WOMAN grew out of a decade of reflections on women's experiences my own my patients and my students writes Professor Ulanov From all of them a common voice emerged speaking about each woman's struggle to receive all of herself Each was trying to find and put together different parts of herself into a whole that was personal alive and real to her and to others I know that women want to be all of themselves and want to be their own selves not examples of types They want to work out their own individual combinations of what have been called the masculine and feminine parts of themselves This book focuses on that possibility on women receiving themselves all of themselves wisely and gladly *Encyclopedia of Women and Religion in North America: Women and religion: methods of study and reflection* Rosemary Skinner Keller, Rosemary Radford Ruether, Marie Cantlon, 2006 A fundamental and well illustrated reference collection for anyone interested in the role of women in North American religious life [Routledge Library Editions: Christianity](#) Various Authors, 2022-07-30 Originally published between 1926 and 1986 the books in this series provide an extensive exploration of Christianity covering a wide range of different perspectives and topics including the relationship between Christianity and other religions the history and development of Christianity Christian theology and philosophy the presence of Christianity across the world women and the Church approaches to the study of Christianity and poetry inspired by religious architecture *Jung and Feminism* Demaris S. Wehr, 2015-12-14 Jung in contrast to Freud has typically been considered more sympathetic to women largely because of his emphasis on the feminine as a way of being in the world and on the anima the unconscious feminine aspect of male

personality Feminists however have viewed Jung's whole notion of the feminine with suspicion seeing it as a projection of male psyche and not an authentic understanding of female humanity For Demaris Wehr both feminism and Jungian psychology have been guiding forces and in this book originally published in 1988 she mediates between feminists and classical Jungians two groups historically at odds She faces squarely the male centred assumptions of some Jungian concepts and challenges Jung's claims for the universality and purely empirical basis of his work but nevertheless maintains an appreciation for the value of Jung's understanding of human nature and the process of individuation By bringing the insights of feminist theology to bear on the seemingly unbridgeable gap between analytical psychology and feminism she succeeds in reclaiming Jungian psychology as a freeing therapy for women and reveals it as the ultimately liberating vision its founder intended it to be

A Consideration of Jung's Psychology of the Feminine and Its Implications for Christian Theology Ann Belford, 1967

The Unfolding God of Jung and Milton James P. Driscoll, 2021-10-21 In this first extensive Jungian treatment of Milton's major poems James P. Driscoll uses archetypal psychology to explore Milton's great themes of God man woman and evil and offers readers deepened understanding of Jung's profound thoughts on Godhead The Father the Son Satan Messiah Samson Adam and Eve gain new dimensions of meaning as their stories become epiphanies of the archetypes of Godhead God and Satan of *Paradise Lost* are seen as the ego and the shadow of a single unfolding personality whose anima is the Holy Spirit and Milton's muse Samson carries the Yahweh archetype examined by Jung in *Answer to Job* and Messiah and Satan in *Paradise Regained* embody the hostile brothers archetype Anima animus and the individuation drive underlie the psychodynamics of Adam and Eve's fall Driscoll draws on his critical acumen and scholarly knowledge of Renaissance literature to shed new light on Jung's psychology of religion The *Unfolding God of Jung and Milton* illumines Jung's heterodox notion of Godhead as a quaternity rather than a trinity his revolutionary concept of a divine individuation process his radical solution to the problem of evil and his wrestling with the feminine in *Godhead The* book's glossary of Jungian terms written for literary critics and theologians rather than clinicians is exceptionally detailed and insightful Beyond enriching our understanding of Jung and Milton Driscoll's discussion contributes to theodicy to process theology and to the study of myths and archetypes in literature
