Filmmakers in Early Hollywood Karen Ward Mahar, 2008-08-25 A study of how and why women in early twentieth century Hollywood went from having plenty of filmmaking opportunities to very few *Women Filmmakers in Early Hollywood* explores when how and why women were accepted as filmmakers in the 1910s and why by the 1920s those opportunities had disappeared In looking at the early film industry as an industry a place of work Mahar not only unravels the mystery of the disappearing female filmmaker but untangles the complicated relationship among gender work culture and business within modern industrial organizations In the early 1910s the film industry followed a theatrical model fostering an egalitarian work culture in which everyone male and female helped behind the scenes in a variety of jobs In this culture women thrived in powerful creative roles especially as writers directors and producers By the end of that decade however mushrooming star salaries and skyrocketing movie budgets prompted the creation of the studio system As the movie industry remade itself in the image of a modern American business the masculinization of filmmaking took root Mahar's study integrates feminist methodologies of examining the gendering of work with thorough historical scholarship of American industry and business culture Tracing the transformation of the film industry into a legitimate big business of the 1920s and explaining the fate of the female filmmaker during the silent era Mahar demonstrates how industrial growth and change can unexpectedly open and close opportunities for women With meticulous scholarship and fluid writing Mahar tells the story of this golden era of female filmmaking *Women Filmmakers in Early Hollywood* is not to be missed Samantha Barbas *Women's Review of Books* Mahar views the business of making movies from the inside out focusing on questions about changing industrial models and work conventions At her best she shows how the industry's shifting business history impacted women's opportunities recasting current understanding about the American film industry's development Hilary Hallett *Reviews in American History*

A scrupulously researched and argued analysis of how and why women made great professional and artistic gains in the U S film industry from 1906 to the mid 1920s and why they lost most of that ground until the late twentieth century Kathleen Feeley *Journal of American History Women Filmmakers in Early Hollywood* offers convincing evidence of how economic forces shaped women s access to film production and presents a complex and engaging story of the women who took advantage of those opportunities Pennee Bender *Business History Review*
