Slow Burn The Rise And Bitter Fall Of American Intelligence In Vietnam:

Slow Burn Orrin DeForest, David Chanoff, 1991-12 An account of the CIA's organization in Vietnam from 1968 to 1975

To Hanoi and Back Wayne Thompson, 2014-07-15 After nearly eighteen months of the largely unsuccessful bombing campaign called Operation Rolling Thunder the US Air Force began to look for ways to overcome technological geographical and political challenges in North Vietnam and use limited air power more effectively In 1972 the two Linebacker campaigns joined with other air operations to make a dramatic although temporary difference While they unleashed powerful B 52 area bombers the campaigns also demonstrated the efficacy of newly developed laser guided precision bombs Drawing upon twenty years of research in classified records Wayne Thompson integrates operational political and personal detail to present a full history of the Air Force role in the war against North Vietnam He provides an unprecedented view of the motivations and actions of the people involved from aircrews to generals to politicians in every phase of the air campaigns He outlines for instance the political reasons for President Johnson's reluctance to use B 52 bombers against major North Vietnamese targets He also examines how the media influenced US policy and how US prisoners became the war's most celebrated heroes The war in Southeast Asia ultimately pushed the Air Force toward adopting more flexible tactics and incorporating increasingly sophisticated weapons that would shape later conflicts

Blowtorch Frank L Jones, 2013-03-15 History has not been kind to Robert Komer a casualty of bad historical analysis and inaccurate information A Cold War national security policy and strategy adviser to three presidents Komer was one of the most influential national security professionals of the era The book begins with a review of his early life that helped shape his worldview It then examines Komer's influence as a National Security Council staff member during the Kennedy administration where he helped set its activist course regarding the Third World Upon Kennedy's death Lyndon Johnson named Komer his point man for Vietnam pacification policy and later General Westmoreland's operational deputy in Vietnam The author highlights Komer's activities during the three years he strove to fulfill the president's vision that Communism could be repelled from Southeast Asia by economic and social development along with military force Known as Blowtorch for his abrasive personality and disdain for bureaucratic foot dragging Komer came to be seen as the right person for managing that effort and in 1968 was rewarded with an ambassadorship to Turkey The book analyzes Komer's work during the Carter

administration as special adviser to Secretary of Defense Harold Brown and Under Secretary of Defense for Policy and credits him for reenergizing the North Atlantic Treaty Organization's conventional capability and forging the military instrument that implemented the Carter Doctrine in the Persian Gulf the Rapid Deployment Joint Task Force It also explores his final role as a defense intellectual and critic of the Reagan administration's defense policies The book concludes with a useful summary of Komer's impact on American policy and strategy and his contributions to counterinsurgency practices a legacy now recognized for its importance in the wars in Iraq and Afghanistan

Pisces Moon Douglas Valentine, 2023-05-15
Pisces Moon The Dark Arts of Empire is a non fiction book about what writer William Burroughs called the backlash and bad karma of empire Set against the author's month long trip to London Vietnam and Thailand in early 1991 it tells how the American empire was created by rapacious businessmen backed by a murderous military establishment media moguls who designed a relentless psychological warfare campaign that glorifies warriors who are programmed to kill on command and clerics who contrived a religious justification for imperialism the subordination of women and the establishment of chattel slavery *Pisces Moon* shows how these mythmakers led by CIA drug traffickers after World War Two destroyed much of Southeast Asia It also tells how the myth of American greatness has come home to roost and is now manifest as the vainglorious militant Christian nationalist movement that wishes to establish a right wing dictatorship *Pisces Moon* argues that the survival of American democracy and the world depends upon people being able to distinguish between material evidence and substantiated facts on the one hand and conspiracy theories religious beliefs and supremacist myths on the other

Dirty Tricks or Trump Cards Roy Godson, 2018-02-06
Contrary to popular misconceptions and public branding as dirty tricks covert action and counterintelligence can have considerable value Democracies while wary of these instruments have benefited significantly from their use saving lives treasure and gaining strategic advantage As liberal democracies confront the post Cold War mix of rogue states and non state actors such as criminals and terrorists and weapons of mass destruction and mass disruption these clandestine arts may prove to be important tools of statecraft and perhaps trump cards in the twenty first century Godson defines covert action as influencing events in other parts of the world without attribution and counterintelligence as identifying neutralizing and exploiting the secret activities of others Together they provide the capability to resist manipulation and control others to advantage Counterintelligence protects U S military technological and diplomatic secrets and turns adversary intelligence to U S advantage Covert action enables the United States to weaken adversaries and to assist allies who may be hampered by open acknowledgment of foreign support

Drawing on contemporary and historical literature broad ranging contacts with senior intelligence officials in many countries as well as his own research and experience as a longtime consultant to the U S government Godson traces the history of U S covert action and counterintelligence since 1945 showing that covert action works well when it is part of a well coordinated policy and when policy makers are committed to succeeding in the long term Godson argues that the best counterintelligence is an offensive defense His exposition of the essential theoretical foundations of both covert action and counterintelligence supported by historical examples lays out the ideal conditions for their use as well as demonstrating why they are so difficult to attain This book will be of interest to students and general readers interested in political science national security foreign policy and military policy

A Question of Torture Alfred McCoy, 2007-04-01 A startling exposé of the CIA's development and spread of psychological torture from the Cold War to Abu Ghraib and beyond In this revelatory account of the CIA's secret fifty year effort to develop new forms of torture historian Alfred W McCoy uncovers the deep disturbing roots of recent scandals at Abu Ghraib and Guantanamo Far from aberrations as the White House has claimed A Question of Torture shows that these abuses are the product of a long standing covert program of interrogation Developed at the cost of billions of dollars the CIA's method combined sensory deprivation and self inflicted pain to create a revolutionary psychological approach the first innovation in torture in centuries The simple techniques involving isolation hooding hours of standing extremes of hot and cold and manipulation of time constitute an all out assault on the victim's senses destroying the basis of personal identity McCoy follows the years of research which he reveals compromised universities and the U S Army and the method's dissemination from Vietnam through Iran to Central America He traces how after 9 11 torture became Washington's weapon of choice in both the CIA's global prisons and in torture friendly countries to which detainees are dispatched Finally McCoy argues that information extracted by coercion is worthless making a case for the legal approach favored by the FBI Scrupulously documented and grippingly told A Question of Torture is a devastating indictment of inhumane practices that have spread throughout the intelligence system damaging American's laws military and international standing

Pacification Richard A Hunt, 2018-02-05 During the Vietnam War the United States embarked on an unusual crusade on behalf of the government of South Vietnam Known as the pacification program it sought to help South Vietnam's government take root and survive as an independent legitimate entity by defeating communist insurgents and promoting economic development

and political reforms In this book Richard Hunt provides the first comprehensive history of America s battle for hearts and minds the distinctive blending of military and political approaches that took aim at the essence of the struggle between North and South Vietnam Hunt concentrates on the American role setting pacification in the larger political context of nation building He describes the search for the best combination of military and political action incorporating analysis of the controversial Phoenix program and illuminates the difficulties the Americans encountered with their sometimes reluctant ally The author explains how hard it was to get the U S Army involved in pacification and shows the struggle to yoke divergent organizations military civilian and intelligence agencies to serve one common goal The greatest challenge of all was to persuade a surrogate the Saigon government to carry out programs and to make reforms conceived of by American officials The book concludes with a careful assessment of pacification s successes and failures Would the Saigon government have flourished if there had been more time to consolidate the gains of pacification Or was the regime so fundamentally flawed that its demise was preordained by its internal contradictions This pathbreaking book offers startling and provocative answers to these and other important questions about our Vietnam experience *No True Glory* Bing West, 2006-09-26

This is the face of war as only those who have fought it can describe it Senator John McCain Fallujah Iraq s most dangerous city unexpectedly emerged as the major battleground of the Iraqi insurgency For twenty months one American battalion after another tried to quell the violence culminating in a bloody full scale assault Victory came at a terrible price 151 Americans and thousands of Iraqis were left dead The epic battle for Fallujah revealed the startling connections between policy and combat that are a part of the new reality of war The Marines had planned to slip into Fallujah as soft as fog But after four American contractors were brutally murdered President Bush ordered an attack on the city against the advice of the Marines The assault sparked a political firestorm and the Marines were forced to withdraw amid controversy and confusion only to be ordered a second time to take a city that had become an inferno of hate and the lair of the archterrorist al Zarqawi Based on months spent with the battalions in Fallujah and hundreds of interviews at every level senior policymakers negotiators generals and soldiers and Marines on the front lines *No True Glory* is a testament to the bravery of the American soldier and a cautionary tale about the complex and often costly interconnected roles of policy politics and battle in the twenty first century
