- SMEs are the most important segment of any economy in the world.
- They are getting the **highest priority** from policymakers due to their already proven **multidimensional contribution** to the socioeconomic environment of a country.
- These enterprises are **easy to start**, require only **minimum capital**, employ a comparatively higher number of people, and produce goods that meet local demands as well as contribute to export earnings.
- Definition of SMEs is based mainly on indicators of replacement cost (**invested amount**), **number of people employed**, yearly revenue, etc.
- **Size of the indicators varies** based on the socioeconomic condition of the country or even the region.
