Baird, 2023-06-18 Reprint of the original first published in 1874 *The Quest for Symbolic Communication in Non-Human Animals* Ulrike Griebel, D. Kimbrough Oller, Irene M. Pepperberg, 2024-06-13 Human language is unique among animals We assume that complex cognitive capacities in general and language in particular evolved gradually and thus are manifest in different kinds and or degrees in other animals demonstrating social communication This assumption is supported by the fact that we can train social species from very different groups of animals e g great apes dolphins dogs parrots to understand and in several cases even use abstract symbols for communication with humans and conspecifics Even simple grammatical rules for sequences of 2 3 symbols can be trained to be understood by several species e g great apes dogs dolphins Even though human language training in these species takes considerable time and effort it convinces us that cognitive foundations for language are present in other species and given the relevant selection pressures symbolic communication could evolve in other species **The Book of Beasts** Terence Hanbury White, 1984-01-01 A preeminent medievalist presents a wonderful catalog of real and fanciful beasts including the mantichora griffin phoenix amphipus jaculus and many other exotic animals White's witty erudite commentary on scientific and historical aspects enhances this survey of proto zoology on which science is based and pre scientific perceptions of the earth's creatures 128 black and white illustrations *Evolution and Learning* R. C. Bolles, M. D. Beecher, 2013-08-21 First published in 1987 Evolutionary theory and learning theory have for a long time developed in quite separate traditions The purpose of this book is partly to celebrate new developments in the two theories by displaying some of the work of this new breed of scholar It is the editors hope that they can encourage others to look more carefully at the mechanisms that make learning an evolutionary consideration and evolution a learning theory consideration **Peterson Field Guide to Bird Sounds of Western North America** Nathan Pieplow, 2019 A comprehensive field guide that uses an innovative Sound Index

to allow readers to quickly identify unfamiliar songs and calls of birds in western North America Bird songs and calls are at least as important as visual field marks in identifying birds Yet short of memorizing each bird s repertoire it s difficult to sort through them all Now with the western edition of this groundbreaking book it s possible to visually distinguish bird sounds and identify birds using a field guide format At the core of this guide is the spectrogram a visual graph of sound With a brief introduction to five key aspects speed repetition pauses pitch pattern and tone quality readers can translate what they hear into visual recognition without any musical training or auditory memorization The Sound Index groups similar songs together narrowing the identification choices quickly to a brief list of birds that are likely to be confused because of the similarity of their songs Readers can then turn to the species account for more information and or listen to the accompanying audio tracks available online Identifying birds by sound is arguably the most challenging and important skill in birding This book makes it vastly easier to master than ever before
