Radermecker,2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist s identity with at time quite unexpected effects on price *The British National Bibliography* Arthur James Wells,1993 Wine & Spirit International ,1988 **The Worth of Goods** Jens Beckert,Patrik Aspers,2011-06-23 Drawing on theory and empirical research this interdisciplinary book brings together leading social scientists to examine how prices are set and how values emerge inside and outside of markets which have become the central force in the contemporary economy **Serials in the British Library** ,1992 **Walford's Guide to Reference Material** Marilyn Mullan,1989 The British counterpart to Sheehy in which it is recommended and vice versa distributed in the US by Unipub Volume 3 completes the 5th edition with 8 833 entries vol 1 Science and technology 1989 5 995 entries vol 2 Social and historical sciences philosophy and religion 1990 7 166 entries While the majority of items are reference books Walford is a guide to reference material and therefore includes periodical articles microforms online and CD ROM sources A special effort has been made to make sure the output of small and specialist presses is not neglected Annotation copyrighted by Book News Inc Portland OR The International Stock Exchange Official Yearbook ,1990 **Understanding International Art Markets and Management** Iain Robertson,Iain Alexander Robertson,2005 Understanding International Art Markets and Management focuses on the visual art market sculpture paintings drawings prints and examines the major transitions that have affected this market t p verso Values and Revaluations Hans Peter Hahn,Anja Klöckner,Dirk Wicke,2022-03-24 Why are some things valuable while others are not How much effort does it take to produce valuable objects How can one explain the different appraisal of certain things in different temporal horizons and in different cultures Cultural processes on how value is attached to things and how value is re established are still little understood The case studies in this volume originating from anthropology and archaeology provide innovative and differentiated answers to these questions However for all contributions there are some common basic assumptions One of these concerns the understanding that it is rarely the

value of the material itself that matters for high valuation but rather the appreciation of the assumed or constructed origin of certain objects or their connection with certain social structures A second of these shared insights addresses the ubiquity of phenomena of value in things There is no society without valued objects As a rule valuation is something negotiated or even disputed Value arises through social action whereby it is always necessary to ask anew which actors are interested in the value of certain objects or in their appreciation This also works the other way round Who are those actors who question corresponding objective values and why The Lamps of Louis Comfort Tiffany Louis Comfort Tiffany, Martin

Eidelberg, 2005-10-19 This is the first book devoted to Tiffany lamps in more than 20 years Experts in the field have made a selection of exceptional lamps many of which have rarely been seen or published and each one has been newly photographed with the latest photographic techniques to reveal in extraordinary detail the artistic quality and high craftsmanship of these masterpieces of decorative art Martin Eidelberg and Alice Cooney Frelinghuysen have contributed essays on the history of the lamps enlarging our understanding of Louis Comfort Tiffany's achievement They have also drawn upon a host of previously unpublished photographs paintings and watercolors by Tiffany and other artists in his employ as well as on working drawings and studio photographs to evoke the lost gardens and interiors of Tiffany's country estate Laurelton Hall that so inspired him They outline the development and manufacture of the Tiffany lamp from freehand sketch to the finished form as well as the chief decorative themes in Tiffany's glass masterpieces and their relation to the work of other fin de siècle glassmakers In this book light color and the inspiration of nature co-mingle to produce a deliciously sensuous experience *Remedios Varo* Remedios Varo, Ricardo Ovalle, 2008 **New York Magazine**, 1990-11-19 New York

both a place and an idea      **Contemporary Chinese Cinema and Visual Culture** Sheldon Lu, 2021-07-15 Honourable Mention Best Monograph Award BAFTSS Publication Awards 2022 Sheldon Lu's wide ranging new book investigates how filmmakers and visual artists from mainland China Hong Kong and Taiwan have envisioned China as it transitions from a socialist to a globalized capitalist state. It examines how the modern nation has been refashioned and reimagined in order to keep pace with globalization and transnationalism. At the heart of Lu's analysis is a double movement in the relationship between nation and transnationalism in the Chinese post socialist state. He considers the complexity of how the Chinese economy is integrated in the global capitalist system while also remaining a repressive body politic with mechanisms of control and surveillance. He explores the interrelations of the local, the national, the subnational and the global as China repositions itself in the world. Lu considers examples from feature and documentary film, mainstream and marginal cinema and a variety of visual arts: photography, painting, digital video, architecture and installation. His close case studies include representations of class, masculinity and sexuality in contemporary Taiwanese and Chinese cinema, the figure of the sex worker as a symbol of modernity and mobility and artists' representations of Beijing at the time of the 2008 Olympics.
