Angela Reese and their children move into their dream home in the Stoneybrook community in Charlotte North Carolina with the hope that the fears and prejudice that once overshadowed their African American family have melted away Artie is now a lieutenant in the Charlotte Fire Department and Angela is an accountant for a banking firm But as they settle in no one has any idea of the everlasting effect that Artie and his family will soon have on the community and entire city Unfortunately Artie knows his new assignment at University Station is not going to be easy The fire station houses a den of redneck racists who are determined to make his life miserable Although he knows he will be the only black man there he still needs to command respect and authority from his brothers in uniform As he rescues victims in burning buildings that he is certain are racist Artie transforms into a courageous hero who does not see color only lives to be saved a decision that seals his fate and determines his legacy Fireman Down is the story of an African American firefighter who bravely wears his uniform during a time of racial unrest in Charlotte North Carolina

Color Matters Kimberly Jade Norwood,2013-12-17 In the United States as in many parts of the world people are discriminated against based on the color of their skin This type of skin tone bias or colorism is both related to and distinct from discrimination on the basis of race with which it is often conflated Preferential treatment of lighter skin tones over darker occurs within racial and ethnic groups as well as between them While America has made progress in issues of race over the past decades discrimination on the basis of color continues to be a constant and often unremarked part of life In Color Matters Kimberly Jade Norwood has collected the most up to date research on this insidious form of discrimination including perspectives from the disciplines of history law sociology and psychology Anchored with historical chapters that show how the influence and legacy of slavery have shaped the treatment of skin color in American society the contributors to this volume bring to light the ways in which colorism affects us all influencing what we wear who we see on television and even which child we might pick to adopt Sure to be an eye opening collection for anyone curious about how race and color continue to affect society Color Matters provides students of race in America with wide ranging overview of a crucial topic

Backstage at Ruth Eckerd Hall Sally Milano,2011 *Closure: Finding Polly* B.R. McCoy,2012-05-02 Closure is a very quiet place in our hearts and minds where we sometimes search for peace and finality We often seek closure when tragedy rips at the very core of our heart forever devastating our lives and the precious lives of our family and friends We must realize that achieving closure is ours and only ours It is not in truth the property of the agony that we experience It is that innate pain that comes from very deep inside us and if we let it it will surely consume us Closure is in our heart of hearts and our intelligible understanding of what weve had to endure and why Please remember it is not what happens to us but how we construe what happens to us that will initially determine our emotions our behaviors and ultimately our mental state of mind Nevertheless if the faith within is not unyielding sadly most will spend their entire fractured lives in search of it From my heart to yours B R McCoy

The Streets Belong to Us Anne Gray Fischer,2022-01-11 Police power was built on women s bodies Men especially Black men often stand in as the ultimate

symbol of the mass incarceration crisis in the United States Women are treated as marginal if not overlooked altogether in histories of the criminal legal system In *The Streets Belong to Us* a searing history of women and police in the modern United States Anne Gray Fischer narrates how sexual policing fueled a dramatic expansion of police power The enormous discretionary power that police officers wield to surveil target and arrest anyone they deem suspicious was tested legitimized and legalized through the policing of women s sexuality and their right to move freely through city streets Throughout the twentieth century police departments achieved a stunning consolidation of urban authority through the strategic discretionary enforcement of morals laws including disorderly conduct vagrancy and other prostitution related misdemeanors Between Prohibition in the 1920s and the rise of broken windows policing in the 1980s police targeted white and Black women in distinct but interconnected ways These tactics reveal the centrality of racist and sexist myths to the justification and deployment of state power Sexual policing did not just enhance police power It also transformed cities from segregated sites of urban vice into the gentrified sites of Black displacement and banishment we live in today By illuminating both the racial dimension of sexual liberalism and the gender dimension of policing in Black neighborhoods *The Streets Belong to Us* illustrates the decisive role that race gender and sexuality played in the construction of urban police regimes **Hurricane**
