Souls And Bodies:

Bodies and Souls, or Spirited Bodies? Nancey Murphy, 2006-01-12 Are humans composed of a body and a nonmaterial mind or soul or are we purely physical beings Opinion is sharply divided over this issue In this clear and concise book Nancey Murphy argues for a physicalist account but one that does not diminish traditional views of humans as rational moral and capable of relating to God This position is motivated not only by developments in science and philosophy but also by biblical studies and Christian theology The reader is invited to appreciate the ways in which organisms are more than the sum of their parts That higher human capacities such as morality free will and religious awareness emerge from our neurobiological complexity and develop through our relation to others to our cultural inheritance and most importantly to God Murphy addresses the questions of human uniqueness religious experience and personal identity before and after bodily resurrection

Souls, Bodies, Spirits Kerry N. Jacoby, 1998-04-23 Jacoby provides a comprehensive social history of the abortion abolition campaign from its beginnings following Roe v Wade through the 1996 elections She explores the abortion abolition effort historically sociologically theologically and politically arguing for a deepened understanding of American abortion opponents The history of the abortion abolition effort in America is examined through three different approaches to the understanding of collective behavior Beginning with the immediate post Roe period the movement is explored as a Catholic moral crusade and Jacoby analyzes why Catholic Americans were particularly prone to such activity as well as why otherwise theologically compatible Protestants were not She then examines the effort as a major social movement beginning around 1980 Finally the late 1980s development of direct action activity most notably in the form of Operation Rescue is viewed in light of its connection to the theology and expectations of religious revivalism In her conclusions Jacoby provides a new model for understanding faith based political action Students teachers and the general public will find this book a thorough comprehensive and accessible examination of the movement

Are We Bodies or Souls? Richard Swinburne, 2019-07-25 What are humans What makes us who we are Many think that we are just complicated machines or animals that are different from machines only by being conscious In *Are We Bodies or Souls* Richard Swinburne comes to the defence of the soul and presents new philosophical arguments that are supported by modern neuroscience When scientific advances enable neuroscientists to transplant a part of brain into a new body he reasons no matter how much we can find out about their brain activity or conscious experiences we will never know whether the resulting person is the same as before or somebody entirely new Swinburne thus argues that we are immaterial souls sustained in existence by our brains Sensations thoughts and intentions are conscious events in our souls that cause events in our brains While scientists might discover some of the laws of nature that determine conscious events and brain events each person's soul is an individual thing and

this is what ultimately makes us who we are *Same Soul, Many Bodies* Brian L. Weiss,2004-11-03 The bestselling author of *Many Lives Many Masters* breaks new ground to reveal how progression therapy into future lives can help transform us in the present How often have you wished you could peer into the future In *Same Soul Many Bodies* Brian L Weiss MD shows us how Through envisioning our lives to come we can influence their outcome and use this process to bring more joy and healing to our present lives Dr Weiss pioneered regression therapy guiding people through their past lives Here he goes beyond that to demonstrate the therapeutic benefits of progression therapy guiding people through the future in a scientific responsible and healing way Through dozens of case histories detailing both past life and future life experiences Dr Weiss shows how the choices that we make now will determine our future quality of life From Samantha who overcame academic failure once she learned of her future as a great physician to Evelyn whose fears and prejudices ended after she envisioned prior and forthcoming lives as a hate victim Dr Weiss gives concrete examples of lives transformed by regression and progression therapy A groundbreaking work *Same Soul Many Bodies* is sure to deeply affect peoples lives as they strive toward their future *Bodies and Souls, Or Spirited Bodies?* Nancey C. Farris,2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it *Souls Trapped in Bodies: The Nature and Purpose of the Human Soul* James L.
