

The background of the slide is a painting depicting a group of African American people in a rural, hilly landscape. In the foreground, several individuals are seated or standing on a dirt path, looking towards the viewer. They are dressed in traditional, possibly handmade, clothing. The middle ground shows more people, some standing and some sitting, amidst lush greenery and trees. The background features rolling hills under a warm, orange-hued sky, suggesting a sunset or sunrise. The overall style is that of a folk or vernacular painting.

Souls Grown Deep Paul Arnett, William Arnett, 2000 **Flashes of a Southern Spirit** Charles Reagan Wilson, 2011-05-01 *Flashes of a Southern Spirit* explores meanings of the spirit in the American South including religious ecstasy and celebrations of regional character and distinctiveness Charles Reagan Wilson sees ideas of the spirit as central to understanding southern identity The South nurtured a patriotic spirit expressed in the high emotions of Confederates going off to war but the region also was the setting for a spiritual outpouring of prayer and song during the civil rights movement Arguing for a spiritual grounding to southern identity Wilson shows how identifications of the spirit are crucial to understanding what makes southerners invest so much meaning in their regional identity From the late nineteenth century invention of southern tradition to early twenty first century folk artistic creativity Wilson examines a

wide range of cultural expression including music literature folk art media representations and religious imagery He finds new meanings in the works of such creative giants as William Faulkner Richard Wright and Elvis Presley while at the same time closely examining little studied figures such as the artist revivalist McKendree Long Wilson proposes that southern spirituality is a neglected category of analysis in the recent flourishing of interdisciplinary studies on the South one that opens up the cultural interaction of blacks and whites in the region

J.B. Murray and the Scripts and Spirit Forms of Africa Licia Clifton-James, Maude Southwell Wahlman, 2022-02-17

Providing an excellent example of why folk artists can be appreciated as carriers of knowledge even if they are unaware of it this book could change the ways we understand and appreciate American folk arts Connecting a sharecropper from Georgia in the Southern United States to a protector and healer in Touba Senegal West Africa the holy city of Mouridism and the final resting place of its founder Shaikh Ahmadou Bamba Mbake it makes an interesting link while examining the cultural aspects of two very different and yet similar paths of life Historians and art historians alike will find this investigation of African American art and folk culture both interesting and insightful Not only does this book trace the characteristics of art through the African Diaspora but it also traces Islam through those same diasporic transportations of colonial exploration and slavery

[Painting a Hidden Life](#) Mechal Sobel,2009-03-15 Born into slavery on an Alabama plantation in 1853 Bill Traylor worked as a sharecropper for most of his life But in 1928 he moved to Montgomery and changed his life becoming a self taught lyric painter of extraordinary ability and power From 1936 to 1946 he sat on a street corner old ill and homeless and created well over 1 200 paintings Collected and later promoted by Charles Shannon a young Montgomery

artist his work received star placement in the Corcoran Gallery's 1982 exhibition Black Folk Art in America From then on the spare and powerful radical modernity of Traylor's work helped place him among the rising stars of twentieth century American artists Most critics and art historians who analyze Traylor's paintings emphasize his extraordinary form and evaluate the content as either simple or enigmatic narratives of black life In Painting a Hidden Life historian Mechal Sobel's trenchant analysis reveals a previously unrecognized central core of meaning in Traylor's near hidden symbolism a call for retribution in response to acts of lynching and other violence toward blacks Drawing on historical records and oral histories Sobel carefully explores the relationship between Traylor's life and his paintings and arrives at new interpretations of his art From an interview with Traylor's great granddaughter Sobel learned that Traylor believed the Birmingham policemen who killed his son in 1929 in fact lynched him a story that neither Traylor nor his family had previously disclosed The trauma of this event Sobel explains propelled Traylor to find a way to voice his rage and spurred the creation of his powerful mysterious visual language Traylor's encoded paintings tell a vibrant multilayered story of conjure power sexual rivalry and violence Revealing an extraordinarily diverse visual universe the symbols in Traylor's paintings reflect the worlds he lived in between 1853 and 1949 the plantation conjure milieu into which he was born the blues culture in which he matured the world of Jim Crow he learned to secretly violate and the Catholic values he adopted in his final years From his African heritage Traylor drew symbols not readily understood by whites He mixed traditional African images with conjure signs with symbols of black Baptists and Freemasons and with images central to the hidden black protest movement the cross and the lynching tree In this groundbreaking examination of an extraordinary artist Sobel uncovers the internalized pain of several generations and traces the paths African Americans blazed long before the march down the Selma Montgomery highway **Everyday**

Genius Gary Alan Fine, 2006-08-01 From Henry Darger's elaborate paintings of young girls caught in a vicious war to the sacred art of the Reverend Howard Finster the work of outsider artists has achieved unique status in the art world Celebrated for their lack of traditional training and their position on the fringes of society outsider artists nonetheless participate in a traditional network of value status and money After spending years immersed in the world of self taught artists Gary Alan Fine presents Everyday Genius one of the most insightful and comprehensive examinations of this network and how it confers artistic value Fine considers the differences among folk art outsider art and self taught art explaining the economics of this distinctive art market and exploring the dimensions of its artistic production and distribution Interviewing dealers collectors curators and critics and venturing into the backwoods and inner city homes of numerous self taught artists Fine describes how authenticity is central to the system in which artists often poor elderly members of a minority group or mentally ill are seen as having an unfettered form of expression highly valued in the art world Respected dealers he shows have a hand in burnishing biographies of the artists and both dealers and collectors trade in identities as much as objects Revealing the inner workings of an elaborate and prestigious world in which money personalities and values affect one

another Fine speaks eloquently to both experts and general readers and provides rare access to a world of creative invention both by self taught artists and by those who profit from their work Indispensable for an understanding of this world and its workings Fine s book is not an attack on the Outsider Art phenomenon But it is masterful in its anatomization of some of its contradictions conflicts pressures and absurdities Eric Gibson Washington Times *Dark Designs and Visual Culture*
