Roman Jakobson and Beyond: Language as a System of Signs Rodney B. Sangster, 2017-12-04 No detailed description available for Roman Jakobson and Beyond Language as a System of Signs History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2004-01-01 Continuing the work undertaken in Vol 1 of the History of the Literary Cultures of East Central Europe Vol 2 considers various topographic sites multicultural cities border areas cross cultural corridors multiethnic regions that cut across national boundaries rendering them permeable to the flow of hybrid cultural messages By focusing on the literary cultures of specific geographical locations this volume intends to put into practice a new type of comparative study Traditional comparative literary studies establish transnational comparisons and contrasts but thereby reconfirm howev **The Prague School** Peter Steiner, 2014-09-10 The Prague Linguistic Circle came into being on the afternoon of October 6 1926 when five Czech and Russian linguists gathered to hear a lecture by a German colleague From this international beginning the interests of the group grew to first encompass language in all its functional heterogeneity and then finally all of culture which the Circle conceived of as a structure of sign systems Semiotics was thus the overarching discipline for the Prague School serving to organize all phenomena shared and exchanged by a cultural community In recent years increasing attention has been paid to the importance of the Prague School but writing about it has frequently been marred by misconceptions The central aim of this volume is to correct those misconceptions and to present the diversity of interests within the Prague School literary criticism linguistics theory of theater folklore and philosophy These essays by Bogatyr v Jakobson Karcevskij Muka ovsk Rieger Vodi ka and Honzl are here translated into English for the first time Some have a special historical value in illuminating critical stages of structuralist thinking others reveal the timeliness of the School s contributions for the theoretical conflicts of our day Each essay is accompanied by an informative introductory note and the whole is followed by the editor s Postscript tracing the roots of structuralist aesthetics

Intertexts William F. Hanks, 2000 This book brings together papers written by William F Hanks over the last decade organized around the three central themes that have been emerged in his work indexicality and referential practices discourse genres and textuality and the historical embeddedness of language Together they present the main elements of a coherent synthetic approach to language in context **Central and Eastern European Literary Theory and the West** Michał Mrugalski, Schamma Schahadat, Irina Wutsdorff, 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century but its relation to Western literary scholarship is complex This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe and between the region and the West The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations both official and informal encounters For the longest time however intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West A few literary theories

nevertheless made it into Western scholarly discourses via exiled scholars. Some of these scholars such as Mikhail Bakhtin became widely known in the West and their thought was transposed onto new Western cultural contexts; others such as Olga Freidenberg were barely noticed outside of Russian and Poland. This volume draws attention to the schools, circles, and concepts that shaped the development of theory in Central and Eastern Europe as well as the history of translations, transformations, and migrations that conditioned its relationship with the West.

The Oxford History of Phonology B. Elan Dresher, Harry van der Hulst, 2022-03-10 This volume is the first to provide an up to date and comprehensive history of phonology from the earliest known examples of phonological thinking through the rise of phonology as a field in the twentieth century and up to the most recent advances. The volume is divided into five parts. Part I offers an account of writing systems along with chapters exploring the great ancient and medieval intellectual traditions of phonological thought that form the foundation of later thinking and continue to enrich phonological theory. Chapters in Part II describe the important schools and individuals of the late nineteenth and early twentieth centuries who shaped phonology as an organized scientific field. Part III examines mid twentieth century developments in phonology in the Soviet Union, Northern and Western Europe, and North America; it continues with precursors to generative grammar and culminates in a chapter on Chomsky and Halle's *The Sound Pattern of English* (SPE). Part IV then shows how phonological theorists responded to SPE with respect to derivations, representations, and phonology-morphology interaction. Theories discussed include Dependency Phonology, Government Phonology, Constraint and Repair theories, and Optimality Theory. The part ends with a chapter on the study of variation. Finally, chapters in Part V look at new methods and approaches covering phonetic explanation, corpora, and phonological analysis, probabilistic phonology, computational modelling, models of phonological learning, and the evolution of phonology. This in-depth exploration of the history of phonology provides new perspectives on where phonology has been and sheds light on where it could go next.

The Literary-Linguistic Analysis of the Bible, 2024-09-16 This collection of essays explores the rich intellectual heritage of Russian Formalism and the Prague School of Linguistics to illuminate their influence on the field of biblical studies and apply their constructive and creative potential for advancing linguistic theory, discourse analysis, and literary interpretation of the texts of the Old and New Testaments in their original languages.

Later Middle English Literature, Materiality, and Culture Brian Gastle, Erick Kelemen, 2018-04-12 The essays in this volume consider the ways in which material and intellectual culture both shaped and were shaped by the literature of late medieval England. The first section, Textual Materiality, reflects on cultural and social issues generally referred to as the History of Ideas and how those ideas manifest in later medieval English texts. Essays address, for example, affect in *The Book of Margery Kempe*, rhetoric in *Sir Gawain and the Green Knight*, anarchy in late medieval political texts, and temporality in Gower's *Confessio Amantis*. The essays in the second section, Material Texts,

examine physical objects from pilgrim badges to manuscripts to money to early printed editions and the cultural behaviors associated with them interpreting these objects and exploring their connections to the important literary and political texts of the age such as Piers Plowman Lydgate's Troy Book and Chaucer's Canterbury Tales All of the essays in this collection emerge from the relationships and connections between the issues that characterize Jim Dean's work the cultural material and aesthetic aspects of later medieval English literature So too do they reflect a movement in medieval literary studies presaged by Dean's career of scholarship and teaching that critical approaches to literary texts are best undertaken with an understanding of the complex cultural and historical milieu that defines both the production of those texts and the production of our own work on those texts

Discourse Analysis and the Greek New Testament Stanley E. Porter, Matthew Brook O'Donnell, 2023-12-28 This volume examines and outlines a Systemic Functional Linguistic SFL model of discourse analysis and its relationship to New Testament Greek The book reflects upon how SFL has grown as a field since it was first introduced to New Testament Greek studies by Stanley E Porter in the 1980s Porter and Matthew Brook O'Donnell first

introduce basic concepts regarding discourse analysis and the major approaches towards it within New Testament studies They then provide a detailed exploration of discourse analysis in terms of the textual metafunction beginning with an introduction to the architecture of language within SFL before exploring several individual elements within it By focusing upon these individual components in particular theme and information structure markedness and prominence and coherence and cohesive harmony Porter and O'Donnell introduce and exemplify the major resources of the textual metafunction

Theoretical Schools and Circles in the Twentieth-Century Humanities Marina Grishakova, Silvi Salupere, 2015-04-10

Schools and circles have been a major force in twentieth century intellectual movements They fostered circulation of ideas within and between disciplines thus altering the shape of intellectual inquiry This volume offers a new perspective on theoretical schools in the humanities both as generators of conceptual knowledge and as cultural phenomena The structuralist semiotic phenomenological and hermeneutical schools and circles have had a deep impact on various disciplines ranging from literary studies to philosophy historiography and sociology The volume focuses on a set of loosely interrelated groups with a strong literary linguistic and semiotic component but extends to the fields of philosophy and history the interdisciplinary conjunctions arising from a sense of conceptual kinship It includes chapters on unstudied or less studied groups such as Tel Aviv School of poetics and semiotics or the research group Poetics and Hermeneutics The volume presents a significant supplement to the standard historical accounts of literary critical and related theory in the twentieth century It enhances and complicates our understanding of the twentieth century intellectual and academic history by showing schools and circles in the state of germination dialogue controversy or decline in their respective historical and institutional settings while reaching simultaneously beyond those dense settings to the new cultural and ideological situations of the twenty first century

Coleridge on the Language of Verse Emerson R. Marks, 2017-03-14 Drawing on the entire corpus of Coleridge's prose Emerson Marks shows how the poet's rationale was grounded in the mimetic theory that informed his distinction between a copy and an imitation which Coleridge himself labeled the universal principle of the fine arts Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Theatre, Communication, Critical Realism T. Nellhaus, 2010-06-21 From oral culture through the advent of literacy to the introduction of printing to the development of electronic media communication structures have radically altered culture in profound ways As the first book to take a critical realist approach to culture Theatre Communication Critical Realism examines theatre and its history through the interaction of society's structures agents and discourses Tobin Nellhaus shows that communication structure a culture's use and

development of speech handwriting printing and electronics explains much about why when and how theatre has transformed

Functionalism in Linguistics René Dirven, Vilém Fried, 1987-01-01 This volume offers a variety of viewpoints on the functional approach to the study of language After an exposition of the Prague School functionalism and Dik's and Halliday's functional approaches it presents a wider area of text linguistic psycholinguistic sociolinguistic theoretical descriptive and applied issues from a functional point of view testifying of the very wide spread and in depth impact of functionalist thought on the present day linguistic scene

The Fictions of Language and the Languages of Fiction Monika Fludernik, 2003-12-16 Monika Fludernik presents a detailed analysis of free indirect discourse as it relates to narrative theory and the crucial problematic of how speech and thought are represented in fiction Building on the insights of Ann Banfield's *Unspeakable Sentences* Fludernik radically extends Banfield's model to accommodate evidence from conversational narrative non-fictional prose and literary works from Chaucer to the present Fludernik's model subsumes earlier insights into the forms and functions of quotation and aligns them with discourse strategies observable in the oral language Drawing on a vast range of literature she provides an invaluable resource for researchers in the field and introduces English readers to extensive work on the subject in German as well as comparing the free indirect discourse features of German French and English This study effectively repositions the whole area between literature and linguistics opening up a new set of questions in narrative theory
