Trap Harrison Akins,2023-06-20 After two decades and trillions of dollars the United States fight against terrorism has achieved mixed results Despite the vast resources and attention expended since 9 11 terrorism has increased in many societies that have been caught up in the war on terror Why have U S policies been unable to stem the tide of violence Harrison Akins reveals how the war on terror has had the unintended consequence of increasing domestic terrorism in U S partner states He examines the results of U S backed counterterrorism operations that targeted al Qaeda in peripheral regions of partner states over which their central governments held little control These operations often provoked a violent backlash from local terrorist groups leading to a spike in retaliatory attacks against partner states Senior U S officials frequently failed to grasp the implications of the historical conflict between central governments and the targeted peripheries Instead they exerted greater pressure on partner states to expand their counterterrorism efforts This exacerbated the underlying conditions that drove the escalating attacks trapping these governments in a deadly cycle of tit for tat violence with local terrorist groups This process Akins demonstrates accounts for the lion s share of the al Qaeda network s global terrorist activity since 2001 Drawing on extensive primary sources including newly declassified documents dozens of in depth interviews with leading government officials in the United States and abroad and statistical analysis The Terrorism Trap is a groundbreaking analysis of why counterterrorism has backfired **The Indigenous World 2004** Diana Vinding,2004 This yearbook contains the most comprehensive update on the current situation of indigenous peoples and the human rights and other international processes related to them With contributions from both indigenous as well as non indigenous scholars and activists this volume of The Indigenous World gives an overview of crucial developments in 2003 that have impacted indigenous peoples of the world Region and country reports covering most of the indigenous world are included along with updated information on the processes within the UN system that relate to indigenous peoples such as the Permanent Forum the Draft Declaration on the Rights of the Indigenous Peoples and the Special Rapporteur on the Human Rights of Indigenous Peoples This volume also reviews other international processes including news from the African Commission on Human and Peoples Rights the Organisation of American States Diana Vinding is an anthropologist and project coordinator at the International Work Group for Indigenous Affairs The Nationality and Statelessness of Nomadic Peoples Under International Law Heather Jean Alexander,2025 Despite the universal right to nationality many nomadic peoples struggle to claim this fundamental status International law offers solutions to combat statelessness like birth

registration but do they work for nomadic peoples The Nationality and Statelessness of Nomadic Peoples Under International Law delves into the nationality challenges faced by four communities former Bedouin in Kuwait Tuareg in Mali Fulani in Cote d'Ivoire and Sama Dilaut Bajau Laut in Malaysia Drawing on diverse sources from across disciplines as well as original field research the book traces the roots of nomadic statelessness from colonization to the present Through a rigorous legal analysis the book evaluates how effectively international law addresses these underlying issues and safeguards the right to nationality for those whose lifestyles transcend borders and conventional nation state structures Finally the book proposes reforms to international law to better address the needs of nomadic peoples regarding nationality and citizenship

#HumanRights Ronald Niezen, 2020-07-28 Social justice and human rights movements are entering a new phase Social media artificial intelligence and digital forensics are reshaping advocacy and compliance Technicians lawmakers and advocates sometimes in collaboration with the private sector have increasingly gravitated toward the possibilities and dangers inherent in the nonhuman HumanRights examines how new technologies interact with older models of rights claiming and communication influencing and reshaping the modern day pursuit of justice Ronald Niezen argues that the impacts of information technologies on human rights are not found through an exclusive focus on sophisticated expert driven forms of data management but in considering how these technologies are interacting with other traditional forms of media to produce new avenues of expression public sympathy redress of grievances and sources of the self Niezen considers various ways that the pursuit of justice is happening via new technologies including crowdsourcing social media facilitated mobilizations and enclosures WhatsApp activist networks and the selective attention of Google's search engine algorithm He uncovers how emerging technologies of data management and social media influence the ways that human rights claimants and their allies pursue justice and the new victimology that prioritizes and represents strategic lives and types of violence over others HumanRights paints a striking and important panoramic picture of the contest between authoritarianism and the new tools by which people attempt to leverage human rights and bring the powerful to account *The Indigenous World*, 2003 **International African Bibliography**, 2005 The Dark Sahara Jeremy Keenan, 2009-05-20 This book reveals the secret US agenda behind the war on terror in Africa and the shocking methods used to perpetuate the myth that the region is a hotbed of Islamic terrorism Africa expert Jeremy Keenan points to overwhelming evidence suggesting that from 2003 the Bush administration and Algerian government were responsible for hostage takings blamed on Islamic militants This created a permissive public attitude allowing the US to establish military bases in the region and pursue multiple imperial objectives in the name of security The shocking revelations in this book undermine the mainstream view of Africa as a legitimate second front in the war on terror
