

THE LETTERS OF STEPHEN GARDINER

Edited by
JAMES ARTHUR MULLER

As secretary to Cardinal Wolsey, counsellor of Henry VIII, chief minister of that monarch for the last six years of his reign, and Lord Chancellor under Queen Mary, Gardiner had a hand in practically every diplomatic and political manoeuvre of his time, and was the friend—or enemy—of every person of prominence. All this is reflected in his letters. He was likewise bishop of one of the most important of English dioceses and leader of conservative churchmen. His letters form a running comment from the conservative or Catholic point of view on the Henrician and Edwardine reformations. They also express the opinion of one who was admitted on all hands to be the ablest English jurist of his day, on such constitutional matters as the relation of the royal supremacy and of the royal power in general to parliamentary enactment and the Common Law; they illustrate the activities and ideas of a University Chancellor who was at once humanist, legislator, and theologian; they abound in vivid comment on notable contemporaries, and in illuminating allusions to customs of the day; and they reveal a many-sided personality which attacked life vigorously, steadily, and not without humour. Moreover, since many of them were written informally and rapidly, and sent without revision, they afford admirable examples of colloquial English as used by a man of culture in the second quarter of the sixteenth century.

Edited by James Arthur Muller* Stephen GARDINER (Bishop of Winchester.), 1933 **The Letters of the Martyrs**, 1837 *The Politics of Counsel in England and Scotland, 1286-1707* Jacqueline Rose, 2016-12-01 Political advice or counsel was fundamental to theory and practice in medieval and early modern government This book charts continuity and change as counsel both influenced and was affected by warfare British unions and the Reformations as well as how it functioned in important reigns such as those of James III Elizabeth I and Charles I *The Church Historians of England ...*, 1859 *The Acts and Monuments. A New and Complete Ed. With a Preliminary Diss. by George Townsend* John Foxe, 1838 *The Language of Daily Life in England (1400-1800)* Arja Nurmi, Minna Nevala, Minna Palander-Collin, 2009-04-15 The Language of Daily Life in England 1400-1800 is an important state of the art account of historical sociolinguistic and socio pragmatic research The volume contains nine studies and an introductory essay which discuss linguistic and social variation and change over four centuries Each study tackles a linguistic or social phenomenon and approaches it with a combination of quantitative and qualitative methods always embedded in the socio historical context The volume presents new information on linguistic variation and change while evaluating and developing the relevant theoretical and methodological tools The writers form one of the leading research teams in the field and as compilers of the Corpus of Early English Correspondence have an informed understanding of the data in all its depth This volume will be of interest to scholars in historical linguistics sociolinguistics and socio pragmatics but also e g social history The approachable style of writing makes it also inviting for advanced students Defending Royal Supremacy and Discerning God's Will in Tudor England Daniel Eppley, 2016-12-05 Early modern governments constantly faced the challenge of reconciling their own authority with the will of God Most acknowledged that an individual's first loyalty must be to God's law but were understandably reluctant to allow this as an excuse to challenge their own powers where interpretations differed As such contemporaries gave much thought to how this potentially destabilising situation could be reconciled preserving secular authority without compromising conscience In this book the particular relationship between the Tudor supremacy over the Church and the hermeneutics of discerning God's will is highlighted and explored This topic is addressed by considering defences of the Henrician and Elizabethan royal supremacies over the English church with particular reference to the thoughts and writings of Christopher St German and Richard Hooker Both of these men were in broad agreement that it was the responsibility of English Christians to subordinate their subjective understandings of God's will to the interpretation of God's will propounded by the church authorities St German originally put forward the proposition that king in parliament as

the voice of the community of Christians in England was authorized to definitively pronounce regarding God's will and that obedience to the crown was in all circumstances commensurate with obedience to God's will. Salvation as envisioned by St. German and Hooker was thus not dependent upon adherence to a single true faith. Rather it was conditional upon a sincere effort to try to discern the true faith using the means that God had made available to the individual, particularly the collective wisdom of one's church speaking through its representatives. In tackling this fascinating dichotomy at the heart of early modern government, this study emphasizes an aspect of the defence of royal supremacy that has not heretofore been sufficiently appreciated by modern scholars and invites consideration of how this aspect of hermeneutics is relevant to wider discussions relating to the nature of secular and divine authority.
