The Life And Times Of Sukarno:

The Life and Times of Sukarno Christian Lambert Maria Penders, 1974 **Indonesia** Taufik Abdullah, 2009 This book traces the beginning of the process of nation formation the struggle for independence the hopeful beginning of the new nation state of Indonesia only to be followed by hard and difficult ways to remain true to the ideals of independence In the process Indonesia with its sprawling archipelago and its multi ethnic and multi religious nation has to undergo various types of crisis and internal conflicts but the ideals that have been nurtured since the beginning when a new nation began to be visualized remain intact Some changes in the interpretation may have taken place and some deviations here and there can be noticed but the literal meaning of the ideals continues to be the guiding light In short this is a history of a nation in the continuing effort to retain the ideals of its existence **Patriots and Tyrants** Ross Marlay, Clark D. Neher, 1999 This innovative text explores the extraordinary personal and political lives of ten leaders who profoundly changed twentieth century Asian history China India Vietnam Cambodia and Indonesia are interpreted through the lives of Mao Zedong Deng Xiaoping Mohandas Gandhi Indira Gandhi Ho Chi Minh Ngo Dinh Diem Norodom Sihanouk Pol Pot Sukarno and Suharto Some recast their countries by force of arms others by the power of their ideology Some were born into poverty others into privilege Some were democrats some autocrats some communists But however great their differences each can claim to be an authentic nationalist Using a biographical approach this book will stimulate students to think about the relationship between political leadership and nationalism **The Life and Times of Sukarno** C. L. M. Penders, 1974 Examines Sukarno s social and cultural background his educational career and achievements and his political development Discusses in detail Sukarno s rise to prominence in the nationalist movement his ideas failures and successes and his often controversial activities during the traumatic period of the Japanese occupation and the Indonesian revolution Illustrated *Government Leaders, Military Rulers and Political Activists* David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines of history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A Z format each biography is divided into a life section describing the individual s life and influences and a legacy section summarizing the impact of that individual s work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples of other lesser known yet important individuals covered in this work are Gustavas Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaur s French socialist leader and pacifist Each synopsis provides information on each individual s enduring impact on the common understanding of fundamental themes of human existence **Authoritarian Modernization in Indonesia's Early Independence Period** Farabi Fakihi, 2020-09-07 In *Authoritarian Modernization in Indonesia s Early Independence Period* Farabi Fakihi offers a historical analysis of the foundational years

leading to Indonesia's New Order state 1966-1998 during the early independence period. The study looks into the structural and ideological state formation during the so-called Liberal Democracy 1950-1957 and Sukarno's Guided Democracy 1957-1965. In particular, it analyses how the international technical aid network and the dominant managerialist ideology of the period legitimized a new managerial elite. The book discusses the development of managerial education in the civil and military sectors in Indonesia. The study gives a strongly backed argument that Sukarno's constitutional reform during the Guided Democracy period inadvertently provided a strong managerial blueprint for the New Order developmentalist state.

King of the Mountain Arnold M. Ludwig, 2002-01-01. People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired, socially purposeful, or even self-serving, all of which they attribute to being human, but they masticate, fornicate, and procreate much as chimps and apes do, so they should have little cause to get upset if they learn that they act like other primates when they politically agitate, debate, abdicate, placate, and administrate. Too from the book *King of the Mountain* presents the startling findings of Arnold M. Ludwig's eighteen-year investigation into why people want to rule. The answer may seem obvious: power, privilege, and perks. But any adequate answer also needs to explain why so many rulers cling to power even when they are miserable, trust nobody, feel besieged, and face almost certain death. Ludwig's results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power, govern, and rule. Profiling every ruler of a recognized country in the twentieth century, over 1,900 people in all, Ludwig establishes how rulers came to power, how they lost power, the dangers they faced, and the odds of their being assassinated, committing suicide, or dying a natural death. Then concentrating on a smaller sub-set of 377 rulers for whom more extensive personal information was available, he compares six different kinds of leaders, examining their characteristics, their childhoods, and their mental stability or instability to identify the main predictors of later political success. Ludwig's penetrating observations, though presented in a lighthearted and entertaining way, offer important insight into why humans have engaged in war throughout recorded history, as well as suggesting how they might live together in peace.

Politics of Dress in Asia and the Americas Mina Roces, 2010-01-20. Explores the ways in which dress has been influential in the political agendas and self-representations of politicians in a variety of regimes from democratic to authoritarian. Arguing that dress is part of politics, this book shows how dress has been crucial to the constructions of nationhood and national identities in Asia and the Americas.

Dictionary of World Biography: The 20th century, O-Z Frank Northen Magill, Christina J. Moose, Alison Aves, 1999-11. Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries

conclude with a fully annotated bibliography
