The Life And Work Of John Nash Architect:

The Life and Work of John Nash, Architect Sir John Newenham Summerson, 1980 **The Life and Work of John Nash, Architect** Sir John Newenham Summerson, 1980 *Laughing at Architecture* Michela Rosso, 2018-11-29 In a media saturated world humour stands out as a form of social communication that is especially effective in re appropriating and questioning architectural and urban culture Whether illuminating the ambivalences of metropolitan life or exposing the shock of modernisation cartoons caricature and parody have long been potent agents of architectural criticism protest and opposition In a novel contribution to the field of architectural history this book outlines a survey of visual and textual humour as applied to architecture its artefacts and leading professionals Employing a wide variety of visual and literary sources prints the illustrated press advertisements theatrical representations cinema and TV thirteen essays explore an array of historical subjects concerning the critical reception of projects buildings and cities through the means of caricature and parody Subjects range from 1750 to the present and from Europe and the USA to contemporary China From William Hogarth and George Cruikshank to Osbert Lancaster Adolf Loos satire and Saul Steinberg's celebrated cartoons of New York City graphic and descriptive humour is shown to be an enormously fruitful yet largely unexplored terrain of investigation for the architectural and urban historian **Sir John Soane? Influence on Architecture from 1791** Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753-1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture **The Architecture of William Nichols** Paul Hardin Kapp, 2015-02-05 The Architecture of William Nichols Building the Antebellum South in North Carolina Alabama and Mississippi is the first comprehensive biography and monograph of a significant yet overlooked architect in the American South William Nichols designed three major university campuses the University of North Carolina the University of Alabama and the University of Mississippi He also designed the first state capitols of North Carolina Alabama and Mississippi Nichols's architecture profoundly influenced the built

landscape of the South but due to fire neglect and demolition much of his work was lost and history has nearly forgotten his tremendous legacy In his research onsite and through archives in North Carolina Alabama Louisiana and Mississippi Paul Hardin Kapp has produced a narrative of the life and times of William Nichols that weaves together the elegant work of this architect with the aspirations and challenges of the Antebellum South It is richly illustrated with over two hundred archival photographs and drawings from the Historic American Building Survey

John Nash ,1991 John Nash architect town planner landscape designer bridge builder engineer and entrepreneur was born in 1752 and died in 1835 outliving his principal patron George IV by five years After a disheartening start he made a remarkable recovery and went on to become the most successful and fashionable architect of his time This fully illustrated survey of Nash s work includes all of his known and attributed works The lively introduction written by the distinguished architectural historian Sir John Summerson gives a perceptive portrait of this imaginative and influential architect

Stories from Architecture Philippa Lewis,2021-10-19 The imagined histories of twenty five architectural drawings and models told through reminiscences stories conversations letters and monologues Even when an architectural drawing does not show any human figures we can imagine many different characters just off the page architects artists onlookers clients builders developers philanthropists working observing admiring arguing In *Stories from Architecture* Philippa Lewis captures some of these personalities through reminiscences anecdotes conversations letters and monologues that collectively offer the imagined histories of twenty five architectural drawings Some of these untold stories are factual like Frank Lloyd Wright s correspondence with a Wisconsin librarian regarding her 5 000 dream home or letters written by the English architect John Nash to his irascible aristocratic client Others recount a fictional if credible scenario by placing these drawings and with them their characters into their immediate social context For instance the dilemmas facing a Regency couple who are considering a move to a suburban villa a request from the office of Richard Neutra for an assistant to measure Josef von Sternberg s Rolls Royce so that the director s beloved vehicle might fit into the garage being designed by his architect a teenager dreaming of a life away from parental supervision by gazing at a gadget filled bachelor pad in *Playboy* magazine even a policeman recording the ground plans of the house of a murder scene The drawings reproduced in color are all sourced from the Drawing Matter collection in Somerset UK and are fascinating objects in themselves but Lewis shifts our attention beyond the image to other possible histories that linger invisible beyond the page and in the process animates not just a series of archival documents but the writing of architectural history
