Chapters and judicious selections from two thousand years of traditional Chinese commentaries which provide the reader access to the text as well as to its reception and interpretation A glossary brief biographies of the commentators a bibliography and an index are also included

Mirror Man Ronald A.Fenn,2011-07-20 The book is a compilation of short vignettes describing certain seen observations from the point of view of one living in an unreal environment and unreal reality except for sometimes far too much of both It tries to explain through a mental split of thinking the disorder of being black and white on a red and white flag which the flag of Nigeria was used to make a new flag for a young nation at peace Some of the book is autobiographical and some more involved in detailed analysis of control by technology and the human animal Man It may seem to be rather complex and hard to read but one must understand I wrote the book in a psychiatric hospital being brainwashed to get back on my feet again It spans a life time of observation in the nation of Canada as seen through an african who is white blinded by so many mindsets about colour and race and origins Leaving everything behind that was most precious in Africa I have had to live this nation s reality as my own sight seen or unseen often misplaced or taken for granted or isolated and or used and abused

Deliverance from Earth Bound and the Celestial Cetaceans Michelle Billiau-Morseu,2013-04-01 With this blue planet of ours what better way than to learn from it s inhabitants I am talking about the Cetaceans of this world If we only just open ourselves up and really listen to what these wonderful creature have to say I challenge anyone to really get to know them and not be touched by them in some way Having a fasination with the cetaceans since I can remember This has been a calling to write this book for some years Having written many articles for magazines I thought it is time to finnish my book My hope is this work will inspire others to stop and really appreciate the cetaceans and what they have to offer
