identity of the person signing as William Shakespeare Two hundred years later biographers still have not come to a consensus on the mystery Of the many candidates advanced in the meantime only a few have survived in biographical literature Stefan Roman s book brings the controversy to a close It clarifies the existing evidence that has often been muddled and at times reached the absurd during almost two centuries of scholarly speculations He also adds some new insights into the analysis of the evidence thus making it easier for readers to draw their own conclusions hopefully not different from his namely that only one of the candidates proposed so far fits the evidence He also provides a substantially modified scenario from the one advanced by her proponents Born in Romania during WWII and immigrated to the U S A in 1989 Stefan Roman is not a musician nor a musicologist He is an engineer by formation a man of exactitude and clear and logical thinking qualities that served him thoroughly when he became an amateur Beethoven scholar A long time member of American Beethoven Society and of its French counterpart Association Beethoven France et Francophonie he has published in their professional journals bringing valuable contributions to understanding Beethoven s life and creation His Ending the Fifth article answered a question that had puzzled musicians scholars and music lovers alike for two hundred years why does Beethoven s Fifth Symphony end with that apparently interminable series of C major chords He took up the pen by force of circumstance for his Beethoven s Immortal Beloved when he realized that all the proposed solutions to the mystery relied on wild speculation and sometimes even falsifying the existing evidence
