The Beginnings Of Rhetorical Theory In Classical Greece:

The Beginnings of Rhetorical Theory in Classical Greece Edward Schiappa, 1999 In this provocative new book Edward Schiappa argues that rhetorical theory did not originate with the Sophists in the fifth century B C E but developed nearly a century later Closely examining the terminology of early rhetorical history Schiappa not only revises the way we understand that history but also contends we must alter the way we read both the Sophists and Aristotle and Plato *Classical Greek Rhetorical Theory and the Disciplining of Discourse* David M. Timmerman, Edward Schiappa, 2010-03-22 This book contributes to the history of classical rhetoric by focusing on how key terms helped to conceptualize and organize the study and teaching of oratory David Timmerman and Edward Schiappa demonstrate that the intellectual and political history of Greek rhetorical theory can be enhanced by a better understanding of the emergence of terms of art in texts about persuasive speaking and argumentation The authors provide a series of studies to support their argument They describe Plato s disciplining of dialgesthai into the Art of Dialectic Socrates alternative vision of philosophia and Aristotle s account of demegoria and symboule as terms for political deliberation The authors also revisit competing receptions of the Rhetoric to Alexander Additionally they examine the argument over when the different parts of oration were formalized in rhetorical theory illustrating how an old school focus on vocabulary can provide fresh perspectives on persistent questions *Greek Rhetoric Before Aristotle* Richard Leo Enos, 2011-11-29 Recent archaeological discoveries coupled with long lost but now available epigraphical evidence and a more expansive view of literary sources provide new and dramatic evidence of the emergence of rhetoric in ancient Greece Many of these artifacts gathered through onsite fieldwork in Greece are analyzed in this revised and expanded edition of *Greek Rhetoric Before Aristotle* This new evidence along with recent developments in research methods and analysis reveal clearly that long before Aristotle s Rhetoric long before rhetoric was even stabilized into formal systems of study in Classical Athens nascent pre disciplinary rhetorics were emerging throughout Greece *The Present State of Scholarship in the History of Rhetoric* Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric *The Present State of Scholarship in the History of Rhetoric* doesn t simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of

more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric* which carries scholarship on rhetoric into the twenty first century

Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol.I John M. Duncan, 2022-10-24 Greco Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation the outcomes of which decisively impact the subsequent course of events These depictions of speaker audience interactions moreover convey crucial didactic persuasive insights to the historians own audiences This monograph presents a detailed comparative analysis of the intra and extra textual functions of speeches and audience responses in Greek historiography Josephus and Acts with special emphasis on Luke s distinctive depiction of the apostles as adaptable yet frequently alienating orators This is volume I of a set of two volumes

Theorizing Histories of Rhetoric Michelle Ballif, 2013-02-25 During the decades of the 1980s and 1990s historians of rhetoric composition and communication vociferously theorized historiographical motivations and methodologies for writing histories in their fields After this fertile period of rich contested and impassioned theorization scholars busily undertook the composition of numerous historical works complicating master narratives and recovering silenced voices and rhetorical practices Yet though historians in these fields have gone about the business of writing histories the discussion of theorization has been quiet In this welcome volume fifteen scholars consider once again the theory of historiography asking difficult questions about the purposes and methodologies of writing histories of rhetoric broadly defined and questioning what it means what it should mean what it could mean to write histories of rhetoric composition and communication The topics addressed include the privileging of the literary and the textual over material artifacts as prime sources of evidence in the study of classical rhetoric the use of rhetorical hermeneutics as a methodology for interpreting past practices the investigation of feminist methodologies that do not fit into the dominant modes of feminist historiographical work and the examination of archives with a queer eye to better construct nondiscriminatory narratives Contributors also explore the value of approaching historiography through the lenses of jazz improvisation and complexity theory and the historiographical method of writing the future in ways that refigure our relationships to time and to ourselves Consistently thoughtful and carefully argued these essays successfully revive the discussion of historiography in rhetoric inspiring fresh avenues of exploration in the field

Gaze, Vision, and Visuality in Ancient Greek Literature Alexandros Kampakoglou, Anna Novokhatko, 2018-03-05 Visual culture performance and spectacle lay at the heart of all aspects of ancient Greek daily routine such as court and assembly cult and ritual and art and culture Seeing was considered the most secure means of obtaining knowledge with many citing the etymological connection between seeing and knowing in ancient Greek as evidence for this Seeing was also however often associated with mere appearances false perception and deception Gazing and visuality in the ancient Greek world have had a central place in the scholarship for some time now enjoying an abundance of pertinent discussions and bibliography If this book differs from the previous publications it is in its emphasis on diverse genres the concepts gaze vision and visuality are considered across different Greek genres and media The recipients of ancient Greek literature both oral and written were encouraged to perceive the narrated scenes as spectacles and to follow the gaze of the characters in the narrative By setting a broad time span the evolution of visual culture in Greece is tracked while also addressing broader topics such as theories of vision the prominence of visuality in specific time periods and the position of visuality in a hierarchisation of the senses

Seeming & Being in Plato's Rhetorical

Theory Robin Reames, 2018-07-23 The widespread understanding of language in the West is that it represents the world. This view, however, has not always been commonplace. In fact, it is a theory of language conceived by Plato, culminating in *The Sophist*. In that dialogue, Plato introduced the idea of statements as being either true or false, where the distinction between falsity and truth rests on a deeper discrepancy between appearance and reality, or seeming and being. Robin Reames's *Seeming Being* in Plato's Rhetorical Theory marks a shift in Plato scholarship. Reames argues that an appropriate understanding of rhetorical theory in Plato's dialogues illuminates how he developed the technical vocabulary needed to construct the very distinctions between seeming and being that separate true from false speech. By engaging with three key movements of twentieth and twenty-first century Plato scholarship—the rise and subsequent marginalization of orality and literacy theory, Heidegger's controversial critique of Platonist metaphysics, and the influence of literary or dramatic readings of the dialogues—Reames demonstrates how the development of Plato's rhetorical theory across several of his dialogues (*Gorgias*, *Phaedrus*, *Protagoras*, *Theaetetus*, *Cratylus*, *Republic*, and *Sophist*) has been both neglected and misunderstood.
