The Bible From A Gnostic Viewpoint:

The Bible in a Spiritual Perspective Konrad Dietzfelbinger, 2020 The Bible is widely regarded as the book of books In a way people shaped by Western culture are all children of the Bible Its language has shaped our languages Its morality is a foundation of our morality Its pictures have furnished our world of imagination Its parables have given material and reference points to our literature and culture But who really knows the Bible How is it structured What is its content When and according to what criteria was it determined which scriptures were to be included in the Bible and which were not What is the best way to interpret it historically salvation historically or spiritually And what significance can the Bible have for Christians and all spiritual seekers today You will find answers in this book

The Origin of the Bible: A Guide For the Perplexed Lee Martin McDonald, 2011-02-17 An album which distilled a genre from the musical cultural and social ether Portishead's *Dummy* was such a complete artistic achievement that its ubiquitous successes threatened to exhaust its own potential RJ Wheaton offers an impressionistic investigation of *Dummy* that imitates the cumulative structure of the album itself piecing together interviews impressions of time and place cultural criticism and a thorough exploration of the music itself The approach focuses as much on the reception and response that *Dummy* engendered as it does on the original production of the album How is that so many people have collectively made a quintessential headphone album into a nightclub album How have they made the product of a niche local scene into an international success This is the story of how an innovative experimental album became the iconic sound for the better part of a decade and an aesthetic template for the experience of music in the digital age

Why Are These Books in the Bible and Not Others? - Volume Three - The Apostolic Fathers and the New Testament Apocrypha Gary F. Zeolla, 2016-11-14 This Volume Three of a three volume set covers books not included in the New Testament These books include the writings of the Apostolic Fathers who were Church leaders and writers of the late first to mid second centuries along with apocryphal books both orthodox and Gnostic Among these apocryphal books are some that have received much publicity of late and from which many people derive their ideas of early Christian history

[Decoding Jesus : A Comparison between John Calvin and Ellen G. White's Views](#) Dr. PP Jones, Th.D, 2014-04-26 Decoding Jesus will forever change your view about Jesus John Calvin 1509 1564 and Ellen G White 1827 1915 though divergent in many ways shared a pivotal common denominator the Judeo Christian Bible from Genesis to Revelation as a major template from which they reflected on the close connectedness and radical difference of God human beings and the created environment Calvin encountered a theological conundrum He was unaware that one cannot hold on to the 16th century Reformation of employing the biblical historical time line from Genesis to Revelation as a reflexive scheme on God's four grand acts creation reconciliation the cross redemption renewal Pentecost Holy Spirit and fulfillment end of time whilst simultaneously embracing the classical first millennium Trinitarian view Karl Barth the great Swiss Reformed theologian of the early 20th century was aware of Calvin's conundrum Barth resolved that the dogma of the Trinity is not

found in the Bible but should be used as a good dogma operating as the main starting pattern of one's theology. How far can one go than Barth in giving the notion of the Trinity a biblical vote of no confidence? White treaded softly around the Trinity notion. Her vast ocean of voluminous writings is devoid of the word Trinity. She visited Switzerland and having read Calvin's doctrines she most likely saw Calvin and the Reformation's contradiction concerning the dogma of the Trinity and wanted to avoid the same trap.

Unholy Hands on the Bible Jay P. Green, 1992. This is an examination of six major new versions: the New International Version (NIV), New American Standard Bible (NASB), New Revised Standard Version (NRSV), Revised English Bible (REB), Good News Bible (GNB), and the New American Bible (NAB). It includes:

1. The textual basis of the above new versions.
2. 379 New Testament verses in which the above new versions are compared with the Greek of the Received Text and the weak evidence that is back of their adulterations.
3. A 200 page examination of the New International Version (NIV) shows that they have added over 100,000 of their own words and have failed to translate over 20,000 of the original words.
4. A separate examination of the New American Standard Bible (NASB). There are 8 appendices including a thorough critique of Kurt Aland's Text of the New Testament.

Get acquainted with the facts for God is going to look to you to warn his people that these new versions are adulterated with many of the heresies of the Gnostics and others. Also since they all contain contradictions within themselves and also contradict one another, love for your fellow saints should require you to let them know that the words they are reading are not all God's words.

Jay P. Green Sr. 1918-2008 is Translator and Editor of The Interlinear Hebrew Greek English Bible and the translator of the Modern King James Version of the Holy Bible, The Teenage Version of the Holy Bible and the Literal translation of the Holy Bible. He has written numerous books on textual criticism.

Alternative Christianities Volume I Vince Nicola, 2014-02-17. Alternative Christianities is a series of books, articles, and lectures. This is only Volume I which introduces the many ancient Christian sects that were ostracized and had their Sacred Scriptures what they were taught by one Jesus' direct Disciples not only left out of the New Testament but also suppressed, banned, and destroyed in the early centuries of Christianity by the emerging universal catholic Christian Church.

Vince Nicola is a historian, not a theologian. Vince is a teacher, not a preacher. Vince extensively researched this subject from the works of the best university religious studies professors in the United States. Additionally, in compiling his treatise, Vince learned how the New Testament besides more Sacred Scriptures were consciously being left out than included many of the texts that were included had been repeatedly changed either accidentally or intentionally to suit the emerging Christian church and their preferred Christian teachings then to accommodate the numerous and compounded Protestant Reformations.

Consequently today there is not ONE Christian Bible or ONE Christian religion but dozens of versions of the Christian Bible and thousands of iterations of Christian religions, denominations, sects, and cults. Christianity is a hodgepodge disaster as viewed by outsiders. A 20th century discovery of these discarded ancient texts brought them back to light. More amazing are the differences from the traditional Christianity being taught and followed today. This made many of today's

Biblical scholars theologians and university professors question whether we all have been led down the wrong Christian path for the past 2 000 years In fact these ancient discarded Alternative Christianities even make more sense in todays world and brings Christianity back to being a religion of Good News Maybe these recent discoveries were a Divine intervention to adjust Christianity back onto its right path the real path that was intended by Jesus Christ Maybe people now can have a fresh and refreshing new look at Christianity Volume I is guaranteed to pique your interest get you hooked and make you want to go more in depth in Volumes II and III This treatise is not only very enlightening and educational for Christians but also for our intertwined Abrahamic descendant Judaism and Islam relatives This is an ecumenical book it is not meant to convert anyone promote any religion or disseminate anyones beliefs This series is a MUST READ for any serious theology or religious studies student to have a complete comprehension of the Bible and Christianity especially if they are going to teach or preach it intelligently and correctly or just for your own education WARNING This series will ruffle many feathers among the ultra conservative and closed minded communities and promises to be very controversial GET YOUR CORRECT FACTS HERE

A Visit to Nicaea C. Ray Wimberly, PhD,2019-07-28 This book A Visit to Nicaea is a search for truths and untruths in the Bible Originally written by unknown Jewish scribes in the Hebrew and Greek languages the Bible is the only source for many ancient and religious events Nicaea was a small town in the 4th century AD located near the Turkish city of znik about 80 miles SE of Constantinople and was the site where religious leaders convened in 325 CE to begin the process of creating the first Christian Bible The Bible was finally canonized in 419 AD and Christianity was declared to be the official religion of the empire Christianity at that time was only one of many religions that existed in the ancient world Unfortunately over time the early Bible would receive numerous changes and eventually morph into many versions resulting in a host of many beliefs and practices This book begins with a review and discussion of recent scientific discoveries about early earth and primitive life as compared to what is written in the Revised Standard Version of the Bible and then provides a summary of all the chapters of the Bible It tries to provide an understanding of the seemingly unswerving faith that many religious practitioners have in the infallibility and power in the Bible even though it has been shown to be seriously flawed This book also presents the results of numerous biblical experts throughout the world who have reviewed and commented on the validity of many ancient writings including a fascinating in depth look into the Bible
