The Launderette A History:

The Launderette Stanley S. Bloom, 1988 **Strayed Homes** Edwina Attlee, 2021-12-16 Poetic and political Strayed Homes invites architects interior designers and urbanists to think again about common concepts in architecture private public and home Whereas most writing about the public private focusses on urban space this book focusses on the domestic exploring those overlooked everyday places where private and intimate activities take place in public With four chapters set in four small liminal spaces the launderette the greasy spoon the fire escape and the sleeper train the book is part architectural history part cultural history It follows a series of allusions and impressions to explore how films adverts books and anecdotes shape experiences of everyday architecture Making a case for the poetic interpretation of space the book can be used as a sourcebook for architects designers and theorists alike prompting the reader to rethink the emotional state of leaving home intimacy in public and lonely dreaming *ANU Productions* Brian Singleton, 2016-11-25 This book sets out strategies of analysis of the award winning tetralogy of performances 2010 14 by ANU Productions known as The Monto Cycle Set within a quarter square mile of Dublin s north inner city colloquially known as The Monto these performances featured social concerns that have blighted the area over the past 100 years including prostitution trafficking asylum seeking heroin addiction and the scandal of the Magdalene laundries While placing the four productions in their social historical cultural and economic contexts the book examines these performances that operated at the intersection of performance installation visual art choreography site responsive and community arts In doing so it explores their concerns with time place history memory the city affect and the self as agent of action City Water Matters Sophie Watson, 2019-06-29 Water is one of the most pressing concerns of our time This book argues for the importance of water as a cultural object and as a source of complex meanings and practices in everyday life embedded in the socio economics of local water provision Each chapter aims to capture one element of water s fluid existence in the world as material object cultural representation as movement as actor as practice and as ritual The book explores the interconnectedness of humans and non humans of nature and culture and the complex entanglements of water in all its many forms how water constitutes multiple differences and is implicated in relations of power often invisible but present nevertheless in the workings of daily life in all its rhythms and forms and water s capacity to assemble a multiplicity of publics and constitute new socialities and connections Cities and their inhabitants without water will die and so will their cultures **Seeking a Role** Brian Harrison, 2009-03-26 An impressively detailed but also unusually wide ranging analysis of post war Britain in the 1950s and 60s covering everything from international relations to family life the countryside to manufacturing religion to race cultural life to political structures **Redefining British Politics** L. Black, 2010-02-24 A history of 1950s and 1960s British political culture Redefining British Politics interrogates ideas movements and identities bordering social and political change consumer organisations campaigns about TV morality and culture Young Conservatism and how party politics used media like TV and was represented in popular

culture **Key West in History** Rodney Carlisle, Loretta Carlisle, 2015-10 This photo rich guide to things to see in Key West takes you through the nearly 200 year history of this unique town era by era Pirates wreckers Civil War sailors Cuban rebels presidents writers and artists all left their mark on town in homes and workplaces museums and monuments **The Dialectics of Shopping** Daniel Miller, 2001-03 This text explores the many contradictions faced by shoppers on a typical London street and in the process offers a sophisticated examination of the way we shop and what it reveals about our relationships to our families and communities as well as to the environment and the economy as a whole Washington, Sept.-Oct. 1969 United States. National Commission on Product Safety, 1970 *Competitiveness in the Real Economy* Rui Vinhas da Silva, 2016-05-23 Value aggregation to goods and services is unbelievably important to the balance of trade of modern nations yet it receives minute attention by economists and policy makers alike In *Competitiveness in the Real Economy* Rui Vinhas da Silva shows that the nature and dynamics of contemporary global competition requires a sharper focus on value aggregation He provides a rounded integrative and multi disciplinary perspective linking national competitiveness economics and management The emphasis is on a transversal philosophy of value aggregation as a key driver of national competitiveness across sectors in the real economy and from production to the consumption of goods and services The links between exports inflows of foreign direct investment FDI and country competitiveness are examined along with the role of exports and the attraction of FDI inflows in building national GDP The author emphasises that culture the notion of being cosmopolitan and understanding aspirational and discriminatory consumers with high disposable income are key drivers of success in the global economy Acknowledging that the complexity of problems comes from diversity of global actors the author highlights the limitations of current economics in responding to contemporary challenges His concern about the management sciences and management learning is that solutions do not lie in the formulation and prescription of universal laws but are contextually laden and derive from an informed intuition that is partly taught and partly experiential The book addresses the implications of all this for how the management skills needed for competitive advantage might best be developed
