intellectual treat of a book Mauricio Ant n tells their story in words and pictures all scrupulously based on the latest scientific research The book is a glorious wedding of science and art that celebrates the remarkable diversity of the life of the not so distant past The best paleomammal artist working today and his knowledge of sabertooths and their evolution is second to none Lars Werdelin Swedish Museum of Natural History Mauricio Ant n is one of the best paleoartists What sets him apart is the fact that he is a great paleontologist in his own right Probably no one else has thought more about sabertooth than he has As a result his illustrations often demonstrate a particular behavior of the extinct mammal that he has personally researched or display a unique point of view Xiaoming Wang Natural History Museum of Los Angeles
