whispers of murder A chilling melody woven into a Cuban band's performance foretells the assassination of Jean Luc Beaumont the French ambassador and the man who nurtured Miles's musical genius Torn between disbelief and dread Miles turns to Detective Rebecca Wells a woman hardened by the city's unforgiving streets and haunted by the unsolved disappearance of her own jazz musician brother Bound by their shared connection to music and the specter of loss Miles and Rebecca descend into the city's labyrinthine underbelly Cryptic clues from the charismatic club owner Kenneth May and the mesmerizing chanteuse Patricia Holt lead them through a world of shadows and lies where the vibrant facade of the French Quarter masks a conspiracy reaching far beyond the dimly lit jazz clubs Miles's trumpet once his sanctuary becomes his weapon He weaves coded messages into his improvisations a desperate attempt to communicate with Rebecca while lulling their adversaries into a false sense of security But the music itself begins to change reflecting the encroaching darkness He uncovers a betrayal that cuts deep shattering his trust and forcing him to confront the uncomfortable truth that even heroes cast shadows As Mardi Gras explodes in a kaleidoscope of color and sound Miles and Rebecca orchestrate a daring counter maneuver their final desperate gambit played out against the backdrop of the city's chaotic revelry But the victory comes at a devastating cost In the aftermath Miles stands alone amidst the discarded masks and confetti the vibrant celebration a hollow echo of the life he has lost His music once a celebration of life now carries the weight of memory and the haunting refrain of what might have been

The Song of Songs and the Fashioning of Identity in Early Latin Christianity Karl Shuve, 2016-03-24 In this work Karl Shuve provides a new account of how the Song of Songs became one of the most popular biblical texts in medieval Western Christianity through a close and detailed study of its interpretation by late antique Latin theologians It has often been presumed that early Latin writers exercised little influence on the medieval interpretation of the poem since there are so few extant commentaries from the period But this is to overlook the hundreds of citations of and allusions to the Song in the writings of influential figures such as Cyprian Ambrose Jerome and Augustine as well as the lesser known theologian Gregory of Elvira Through a comprehensive analysis of these citations and allusions Shuve argues that contrary to the expectations of many modern scholars the Song of Songs was not a problematic text for early Christian theologians but was a resource that they mined as they debated the nature of the church and of the virtuous life The first part of the volume considers the use of the Song in the churches of Roman Africa and Spain where bishops and theologians focused on images of enclosure and purity invoked in the poem In the second part the focus is late fourth century Italy where a new ascetic interpretation concerned particularly with women's piety began to emerge This erotic poem gradually became embedded in the discursive traditions of Latin Late Antiquity which were bequeathed to the Christian communities of early medieval Europe
