Geoffrey Hayes, 2017-07-12 In 1943 General Harry Crerar penned a memorandum in which he noted that there was still much confusion as to what constitutes an Officer His words reflected the army's preoccupation with creating an ideal officer who would not only meet the immediate demands of war but also be able to conform to notions of social class and masculinity Drawing on a wide range of sources and exploring the issue of leadership through new lenses this book looks at how the army selected and trained its junior officers after 1939 to embody the new ideal It finds that these young men through the mentors they copied the correspondence they left even the songs they sang practised a temperate heroism that distinguished them from the idealized heroic visions of officership from the First World War Fascinating and highly original this book sheds new light on the challenges many junior officers faced during the Second World War not only on the battlefield but from Canadians often conflicted views about social class and gender **The Juno Beach Trilogy** Mark Zuehlke, 2012-11-02

*U-Boats Against Canada* Michael L. Hadley, 1985 **The Practice of Folklore** Simon J. Bronner, 2019-08-01 Winner of the 2020 Chicago Folklore Prize CHOICE Outstanding Academic Title for 2020 Despite predictions that commercial mass culture would displace customs of the past traditions firmly abound often characterized as folklore In *The Practice of Folklore* Essays toward a Theory of Tradition author Simon J. Bronner works with theories of cultural practice to explain the social and psychological need for tradition in everyday life Bronner proposes a distinctive praxic perspective that will answer the pressing philosophical as well as psychological question of why people enjoy repeating themselves The significance of the keyword practice he asserts is the embodiment of a tension between repetition and variation in human behavior Thinking with practice particularly in a digital world forces redefinitions of folklore and a

reorientation toward interpreting everyday life More than performance or enactment in social theory practice connects localized culture with the vernacular idea that this is the way we do things around here Practice refers to the way those things are analyzed as part of rather than apart from theory thus inviting the study of studying The way we do things invokes the social basis of doing in practice as cultural and instrumental Building on previous studies of tradition in relation to creativity Bronner presents an overview of practice theory and the ways it might be used in folklore and folklife studies Demonstrating the application of this theory in folkloristic studies Bronner offers four provocative case studies of psychocultural meanings that arise from traditional frames of action and address issues of our times referring to the boogieman connecting wild child beliefs to school shootings deciphering the offensive chants of sports fans and explicating male bravado in bawdy singing Turning his analysis to the analysts of tradition Bronner uses practice theory to evaluate the agenda of folklorists in shaping perceptions of tradition centered folk societies such as the Amish He further unpacks the culturally based rationale of public folklore programming He interprets the evolving idea of folk museums in a digital world and assesses how the folklorists terms and actions affect how people think about tradition

Zuehlke, 2009-07-01 On June 6 1944 the greatest armada in history stood off Normandy and the largest amphibious invasion ever began as 107 000 men aboard 6 000 ships pressed toward the coast Among this number were 18 000 Canadians who were to land on a five mile long stretch of rocky ledges fronted by a wide expanse of sand Code named Juno Beach Here sheltered inside concrete bunkers and deep trenches hundreds of German soldiers waited to strike the first assault wave with some ninety 88 millimetre guns fifty mortars and four hundred machineguns A four foot high sea wall ran across the breadth of the beach and extending from it into the surf itself were ranks of tangled barbed wire tank and vessel obstacles and a maze of mines Of the five Allied forces landing that day they were scheduled to be the last to reach the sand Juno was also the most exposed beach their day s objectives eleven miles inland were farther away than any others and the opposition awaiting them was believed greater than that facing any other force At battle s end one out of every six Canadians in the invasion force was either dead or wounded Yet their grip on Juno Beach was firm *Father Rick Roamin' Catholic* Rick
