**The Burden of Female Talent** Ronald Egan, 2020-10-26 Widely considered the preeminent Chinese woman poet Li Qingzhao 1084-1150s occupies a crucial place in China's literary and cultural history She stands out as the great exception to the rule that the first rank poets in premodern China were male But at what price to our understanding of her as a writer does this distinction come The Burden of Female Talent challenges conventional modes of thinking about Li Qingzhao as a devoted but often lonely wife and later a forlorn widow By examining manipulations of her image by the critical tradition in later imperial times and into the twentieth century Ronald C. Egan brings to light the ways in which critics sought to accommodate her to cultural norms molding her talent to make it compatible with ideals of womanly conduct and identity Contested images of Li including a heated controversy concerning her remarriage and its implications for her devotion to her first husband reveal the difficulty literary culture has had in coping with this woman of extraordinary conduct and ability The study ends with a reappraisal of Li's poetry freed from the autobiographical and reductive readings that were traditionally imposed on it and

which remain standard even today      *The Taoist Canon* Kristofer Schipper, Franciscus Verellen, 2019-09-01 Taoism remains the only major religion whose canonical texts have not been systematically arranged and made available for study This long awaited work a milestone in Chinese studies catalogs and describes all existing texts within the Taoist canon The result will not only make the entire range of existing Taoist texts accessible to scholars of religion it will open up a crucial resource in the study of the history of China The vast literature of the Taoist canon or Daozang survives in a Ming Dynasty edition of some fifteen hundred different texts Compiled under imperial auspices and completed in 1445 with a supplement added in 1607 many of the books in the Daozang concern the history organization and liturgy of China's indigenous religion A large number of works deal with medicine alchemy and divination If scholars have long neglected this unique storehouse of China's religious traditions it is largely because it was so difficult to find one's way within it Not only was the rationale of its medieval classification system inoperable for the many new texts that later entered the Daozang but the system itself was no longer understood by the Ming editors hence the haphazard arrangement of the canon as it has come down to us This new work sets out the contents of the Daozang chronologically allowing the reader to follow the long evolution of Taoist literature Lavishly illustrated the first volume ranges from antiquity through the Middle Ages while the second spans the modern period Within this frame texts are grouped by theme and subject Each one is the subject of a historical abstract that identifies the text's contents date of origin and author Throughout the first two volumes introductions outline the evolution of Taoism and its spiritual heritage A third volume offering biographical sketches of frequently mentioned Taoists multiple indexes and an extensive bibliography provides critical tools for navigating this guide to one of the fundamental aspects of Chinese culture

*A Short History of Persian Literature* T.N. Devare, 2018-05-24 This is a seminal book first published in 1961 Over the past six decades T N Devare's work has been widely recognised as a pioneering study to re-discover the glorious heritage of Persian in the Deccan following the first comprehensive and critical survey completed by the author of Persian manuscript sources and literary works scattered across numerous libraries archives and repositories in India and abroad The book convincingly argues that the Deccan's multilingual and multi-religious traditions shaped the evolution of Indo-Persian and produced over nearly four centuries a distinct literary and cultural world marked by a syncretic character which defied social political or religious boundaries The author also makes the case for collaboration between Persian and the regional languages of India particularly Marathi It is the rich legacy of Persian in the Deccan Courts with their vast treasures of literature that is preserved in Dr Devare's work The book has been regarded and continues to remain a foundational text for studying the Deccan be it in the field of history literature or culture Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka
