Sooner Or Later The Timing Of Parenthood In Adult Lives:

Father Time: The Social Clock and the Timing of Fatherhood W. Goldberg, 2014-07-08 Men's biological clocks may not be ticking loudly but what about the social clock? Are there benefits to being in step with social norms for the timing of parenthood? In a clear and accessible style this book examines the advantages and disadvantages of early on time and delayed first fatherhood. The book includes a foreword by Ross D Parke. **First-Time Parenting Journeys** Damien W. Riggs, Clare Bartholomaeus, 2023-03-09 All too often heterosexual first time parents are treated as the unmarked norm within research on reproduction. *First Time Parenting Journeys* maps out what it means to be situated within the norm while providing a critical account of how social norms about parenthood shape, regulate and potentially delimit experiences of new parenthood for heterosexual couples. Based on qualitative longitudinal research this book tells the story of journeys to parenthood highlighting the impact of gender norms, moral claims, emotion work and generativity. While drawing on Australian data the critical conceptual framework has broader applicability across Western contexts in terms of understanding normative family structures and parenting practices. By focusing on expectations about and the reality of new parenthood it explicates the ways in which institutionalised norms about parenthood are internalised and explores what this can tell us about the broader contours of parenthood discourses. *Sooner Or Later* Pamela Daniels, 1982 **Ready** Elizabeth Gregory, 2012-08-07 Over the past three decades skyrocketing numbers of women have chosen to start their families in their late thirties and early forties. In 2005 ten times as many women had their first child between the ages of 35 and 39 as in 1975 and thirteen times as many had their first between 40 and 44. Women now have the option to define for themselves when they're ready for family rather than sticking to a schedule set by social convention. As a society however we have yet to come to terms with the phenomenon of later motherhood and women who decide it makes sense for them to delay pregnancy often find themselves confronted with alarmist warnings about the dangers of waiting too long. In *Ready* Elizabeth Gregory tracks the burgeoning trend of new later motherhood and demonstrates that for many women today waiting for family works best. She provides compelling evidence of the benefits of having children later by birth or by adoption. Gregory reveals that large numbers of women succeed in having children between 35 and 44 by the usual means; one in seven kids born today has a mom in that age range and that many of those who don't succeed nonetheless find alternate routes to happy families via egg donation or adoption. And they're glad they waited. Without ignoring the complexities that older women may face in their quest to have children, Gregory reveals the many advantages of waiting: Stronger family focus. Having achieved many of their personal and career goals, new later moms feel ready to focus on family rather than trying to juggle priorities. More financial power. New later moms have established careers and make higher salaries. Greater self-confidence. New later moms have more career experience and their management skills translate directly into managing a household and advocating for their children. More stable single parenting. New later moms who are single have more resources. High marriage rate. On average 85 percent of

new later moms are married lending stability to the family structure Longer lives Evidence indicates that new later moms actually live longer than moms who start their families earlier Based on in depth interviews with more than 100 new later moms and extensive collateral research Ready shatters the myths surrounding later motherhood Drawing on both the statistical evidence and the voices of the new later mothers themselves Gregory delivers surprising and welcome news that will revolutionize the way we think about motherhood *Fatherhood Today* Phyllis Bronstein, Carolyn Pape Cowan, 1988 Bringing together the views of professionals in psychology social work education nursing and other fields this work describes the changing roles of men as husbands and fathers *The Course of Life: Adulthood and the aging process*, 1981 **The Psychoanalytic Study of Lives Over Time** Jonathan Cohen, Betram J. Cohler, 1999-09-02 The Psychoanalytic Study of Lives Over Time Clinical and Research Perspectives on Children Who Return to Treatment in Adulthood is a landmark volume that addresses an essential clinical question what is the nature of the process and outcome of clinical work with children An internationally renowned group of analytic clinicians and clinician researchers all comment on three fascinating child analytic situations where the patient returned to treatment in adulthood **Parenting Across the Life Span** Jane Beckman Lancaster, Research on parenting through the life course has developed around two separate approaches Evolutionary biology provides fresh perspectives from life history theory using behavioral ecology and parental investment theory At the same time the social and behavioral sciences integrates research from long term studies of individual development and from the collection of life histories This path breaking book advances evolutionary life history research by integrating perspectives of these two approaches into a biosocial science of the life course It examines parenthood as a commitment extending throughout life and focuses on the impact on parental and child behavior of changes in the timing distribution and intensity of parental investment This perspective is particularly appropriate for research on parenting since the family is the universal human institution within which the bearing and rearing of children has been based and which transmits traditions beliefs and values to the young **Parenthood in America** Lawrence Balter, 2000-12-13 Critically acclaimed and highly authoritative collection of parenting issues featuring a unique balance of practical and scholarly information This illustrated A Z encyclopedia on parenthood in America offers fresh insights and solid information all based on the latest research Parenthood in America is the work of the nation's real authorities the heavy hitters in psychology health sociology anthropology and family history It aims to fill the gap between how to books which generally blend popular notions and authors pet theories and specialized texts aimed at scholars Parents teachers students and professionals working in the field will find something here to inform surprise and even entertain Entries are concise carefully illustrated and accompanied by suggestions for further reading Readers will find entries on the superstars of the field both popular Dr Spock Dr Seuss Mr Rogers and scholarly Ainsworth Bowlby Erikson *The Oxford Handbook of Integrative Health Science* Carol D. Ryff, Robert F. Krueger, 2018 Most health research to date has been pursued within the confines of scientific disciplines that are guided

by their own targeted questions and research strategies Although useful such inquiries are inherently limited in advancing understanding the interplay of wide ranging factors that shape human health The Oxford Handbook of Integrative Health Science embraces an integrative approach that seeks to put together sociodemographic factors age gender race socioeconomic status known to contour rates of morbidity and mortality with psychosocial factors emotion cognition personality well being social connections behavioral factors health practices and stress exposures caregiving responsibilities divorce discrimination also known to influence health A further overarching theme is to explicate the biological pathways through which these various effects occur The biopsychosocial leitmotif that inspires this approach demands new kinds of studies wherein wide ranging assessments across different domains are assembled on large population samples The MIDUS Midlife in the U S national longitudinal study exemplifies such an integrative study and all findings presented in this collection draw on MIDUS The way the study evolved via collaboration of scientists working across disciplinary lines and its enthusiastic reception from the scientific community are all part of the larger story told Embedded within such tales are important advances in the identification of key protective or vulnerability factors these pave the way for practice and policy initiatives seeking to improve the nation s health

Asia: School, Work, and Family Life Wei-Jun Jean Yeung, Cheryll Alipio, Frank F. Furstenberg, Jr., 2013-03-07 In the past decade or so scholars in the United States have identified the emergence of a new distinct stage of life as adolescence has become protracted and most young people of recent generations take longer to achieve economic and psychological autonomy than they did a half century ago This new life stage in between adolescence and adulthood when young people are in a semiautonomous state has come to be known as early adulthood Main characteristics of this new life stage include a later entry into the work force a longer period of time living in the natal home and a delayed age at marriage and childbearing These trends not only have profound implications for young adults well being and intergenerational relationships but also challenge social institutions such as family schools labor markets and many youth serving institutions

Handbook of the Life Course Michael J. Shanahan, Jeylan T. Mortimer, Monica Kirkpatrick Johnson, 2015-10-26 Building on the success of the 2003 Handbook of the Life Course this second volume identifies future directions for life course research and policy The introductory essay and the chapters that make up the five sections of this book show consensus on strategic next steps in life course studies These next steps are explored in detail in each section Section I on life course theory provides fresh perspectives on well established topics including cohorts life stages and legal and regulatory contexts It challenges life course scholars to move beyond common individualistic paradigms Section II highlights changes in major institutional and organizational contexts of the life course It draws on conceptual advances and recent empirical findings to

identify promising avenues for research that illuminate the interplay between structure and agency It examines trends in family school and workplace as well as contexts that deserve heightened attention including the military the criminal justice system and natural and man made disaster The remaining three sections consider advances and suggest strategic opportunities in the study of health and development throughout the life course They explore methodological innovations including qualitative and three generational longitudinal research designs causal analysis growth curves and the study of place Finally they show ways to build bridges between life course research and public policy The SAGE Encyclopedia of Lifespan Human Development Dr Marc Bornstein, Marc H. Bornstein, 2018-01-15 In approximately 800 signed articles by experts from a wide diversity of fields this encyclopedia explores all individual and situational factors related to human development across the lifespan **Journey to Adulthood** Chin-Chun Yi, Ming-Chang Tsai, 2023-01-06 Young people in East Asia are increasingly experiencing a prolonged transition to adulthood They are spending longer in school entering the labour market later and getting married later still This protracted young adulthood interacts with forces of both tradition and modernization as social and economic changes generate profound effects on the transition from school to work on family formation on personal relationships and on subjective well being Journey to Adulthood explores the special characteristics of young adulthood in East Asia It uses Taiwan as illustrative example with comparative findings from its East Asian neighbours Japan Korea and Hong Kong It describes the particular growth context of a millennial generation and the challenges they face as they attempt to balance family formation personal development and entry into a market economy Edited by Chin Chun Yi and Ming Chang Tsai this collection helps us to understand the structural configurations East Asian young adults collectively represent Taking a cross cultural and comparative perspective it enables meaningful policy suggestions on family dynamics educational strategy and health and well being across the globe Dr Chin Chun Yi and Dr Ming Chang Tsai both work within the Institute of Sociology Research Center for Humanities and Social Sciences Academia Sinica Taiwan
