The Archaeology of La Calsada C. Roger Nance,2010-07-22 On a remote mountainside 2 000 meters above sea level in the northern Sierra Madre Oriental the rockshelter at La Calsada has yielded basic archaeological data for one of the least understood regions of prehistoric North America the state of Nuevo Le n in northern Mexico This comprehensive site report with detailed information on artifacts and stratigraphy provides baseline data for further explorations in the region and comparisons with other North American hunter gatherer groups Radiocarbon dating traces the earliest component at the site to 8600 7500 B C giving La Calsada arguably the earliest well dated lithic complex in Mexico Nance describes some 1 140 recovered stone tools with comparisons to the archaeology of southern and southwestern Texas as well as reported sites in Tamaulipas Coahuila and Nuevo Le n Mexico From the lithic and stratigraphic analysis Nance deduces occupational patterns at the site beginning with Paleo Indian cultures that lived in the area until about 7500 B C Through changes in tool technology he follows the rise of the Abasolo tradition around 3000 B C and the appearance of a new culture with a radically different lithic industry around 1000 A D

Dyson,2019-01-31 Rome is one of the world s greatest archaeological sites preserving many major monuments of the classical past It is also a city with an important post Roman history and home to both the papacy and the modern Italian state Archaeologists have studied the ruins and popes and politicians have used them for propaganda programs Developers and preservationists have fought over what should and should not be preserved This book tells the story of those complex interacting developments over the past three centuries from the days of the Grand Tour through the arrival of the fascists which saw more destruction but also an unprecedented use of the remains for political propaganda In post war Rome urban development predominated over archaeological preservation and much was lost However starting in the 1970s preservationists have fought back saving much and making the city into Europe s most important case study in historical preservation and historical loss *Tales of Gotham, Historical Archaeology, Ethnohistory and Microhistory of New York City* Meta F. Janowitz,Diane Dallal,2013-02-03 Historical Archaeology of New York City is a collection of narratives about people who lived in New York City during the seventeenth eighteenth and nineteenth centuries people whose lives archaeologists have encountered during excavations at sites where these people lived or worked The stories are ethnohistorical or microhistorical studies created using archaeological and documentary data As microhistories they are concerned with particular people living at particular times in the past within the framework of world events The

world events framework will be provided in short introductions to chapters grouped by time periods and themes The foreword by Mary Beaudry and the afterword by LuAnne DeCunzio bookend the individual case studies and add theoretical weight to the volume Historical Archaeology of New York City focuses on specific individual life stories or stories of groups of people as a way to present archaeological theory and research Archaeologists work with material culture artifacts to recreate daily lives and study how culture works this book is an example of how to do this in a way that can attract people interested in history as well as in anthropological theory
