**Modern Architecture and the Mediterranean** Jean-Francois Lejeune, Michelangelo Sabatino, 2009-12-04 Bringing to light the debt twentieth century modernist architects owe to the vernacular building traditions of the Mediterranean region this book considers architectural practice and discourse from the 1920s to the 1980s The essays here situate Mediterranean modernism in relation to concepts such as regionalism nationalism internationalism critical regionalism and postmodernism an alternative history of the modern architecture and urbanism of a critical period in the twentieth century      **Modern Architecture in Mexico City** Kathryn E. O'Rourke, 2017-02-10 Mexico City became one of the centers of architectural modernism in the Americas in the first half of the twentieth century Invigorated by insights drawn from the first published histories of Mexican colonial architecture which suggested that Mexico possessed a distinctive architecture and culture beginning in the 1920s a new generation of architects created profoundly visual modern buildings intended to convey Mexico's unique cultural character By midcentury these architects and their students had rewritten the country's architectural history and transformed the capital into a metropolis where new buildings that evoked pre-conquest colonial and International Style architecture coexisted Through an exploration of schools a university campus a government ministry a workers park and houses for Diego Rivera and Luis Barragan Kathryn O'Rourke offers a new interpretation of modern architecture in the Mexican capital showing close links between design evolving understandings of national architectural history folk art and social reform This book demonstrates why creating a distinctively Mexican architecture captivated architects whose work was formally dissimilar and how that concern became central to the profession      **Contemporary Architects** Ann Lee Morgan, Colin Naylor, 1987 To strengthen the contemporary focus of this volume we have added about forty architects and have deleted some whose activity ceased before World War II In making these decisions we have been assisted by an Advisory Board As in the first volume we have continued to define the word architect very broadly so as to include planners theorists structural engineers and landscape architects whose work seems to be central to the enterprise of creating habitable spaces in our day Editor's note      **La forma de la casa como idea de proyecto** Javier Blanco Martin, 2021-06-17 La forma tradicional de la casa fue proscrita por la modernidad A mediados del siglo XX comienza a definirse conceptualmente el poliedro de las siete caras significándose como hogar identitario de lo humano y por excelencia como el arquetipo de la arquitectura intemporal y universal que no proviene de ninguna cultura en particular sino de todas Est en el imaginario individual y el colectivo Al referirnos a la forma icónica de la casa como idea de proyecto nos encontramos ante un problema específicamente disciplinar es una forma o es una imagen en cualquier caso recuperada de la tradición de lo vernáculo o lo clásico a la que se le han incorporado las nuevas tecnologías constructivas es su uso actual una tipología nueva que encuentra sus raíces en la historia en la tradición en lo vernáculo en lo popular etcetera o incluso es un

mero formalismo como los muchos a los que nos tiene acostumbrados la arquitectura contemporánea o es una nueva reinterpretación o una relectura historicista derivada de la postmodernidad por qué ahora se está dando un mayor reconocimiento a esta forma es una moda y como tal pasajera que hizo que se denostara a partir del primer tercio del siglo XX cuando ha sido su influencia en los movimientos del siglo XX cuando les han sido sus interferencias con otras disciplinas artísticas que han aportado los avances tecnológicos y científicos de la construcción en la recuperación de una forma básicamente tradicional cuando les han sido las diversas reacciones de la sociedad a lo largo del siglo XX hacia las distintas tendencias arquitectónicas de qué manera desde las ideologías se ha utilizado esta forma icónica por los poderes político y económico si hasta hace menos de un siglo era una forma reservada a la casa del hombre y a la casa de los dioses del mismo modo por qué esta forma se utiliza a menudo como dispositivo proyectual en los edificios destinados a guardar los centros de asistencia psicológica o asilos
