Leonard, 2023-01-30 For a little over a decade after the ignominious collapse of the Revolution of 1848 Karl Marx and Friedrich Engels worked as professional journalists Writing from London for newspapers in the United States and eventually on the Continent Marx continued while living in exile the analysis of the crisis of revolution that he first began in direct engagement with revolutionary events most notably in *The Class Struggles in France* 1850 and *The Eighteenth Brumaire of Louis Bonaparte* 1852 In what became a vast body of material through this journalistic work Marx elaborated the critical concept of bonapartism first abumbrated in the latter book Continuing his effort to learn the lesson of 1848 Marx concentrated on the crisis of modern society and the new mass democratic state that emerged in the absence of the dictatorship of the proletariat to meet that crisis This volume is the first to compile the journalistic works of Karl Marx and Friedrich Engels dealing with

C. Raack,1965 Baron Friedrich vom Stein s leadership of the reform movement in Prussia has long been considered part of a critically important phase of early nineteenth century German history R C Raack describes in vivid detail the combination of forces and circumstances which brought about Stein s fall from power as chief minister of Frederick William III Most of the major Prussian political figures of the period were deeply embroiled in the complex and sometimes curious series of events which culminated in the nomination of his successors and Raack s incisive study provides an enlightening reappraisal of both the roles of the individuals concerned and the intricate domestic political situation
