

HITTERS AND RUNNERS

main categories of baseball statistics (hitting, pitching, defense) hitting is most accurate to quantify. The data that is available is robust. We know how often he hit, how often, how far it goes and at what angle. But just because a player leads the league in a certain category does not necessarily mean he is the best at that skill. Track record matters, too.

to do projections. Let's take Bryce Harper, for example. He hit 21 home runs last season. While that seems like a down year for him power-wise, should we drop him from our list of best power hitters? Truth be told, his power numbers were down in 2019 as he recovered from Tommy John surgery, but he once again was among the league's best power hitters in the second half.
