The Biblical Flood A Case Study Of The Church's Response To Extrabiblical Evidence:

The Biblical Flood Davis A. Young,1995 Using the biblical flood as an example Young contends that the church has not always handled evidence well in grappling with scientific matters and issues a call to biblical scholars to interpret the Genesis text more rigorously in light of current scientific knowledge

Geisler,2012-11-01 The Big Book of Christian Apologetics is a comprehensive resource designed to equip motivated believers with information to help defend and explain their faith Examining nearly every key issue person and concept related to Christian apologetics this book clarifies difficult biblical passages clearly explains various philosophical systems and concepts examines contemporary issues and challenges and offers classic apologetic arguments all with the aim of giving readers the background to intelligently and persuasively talk about their Christian faith with skeptics An expertly abridged version of the Baker Encyclopedia on Christian Apologetics this resource brings leading apologist Norman L Geisler's seminal work to the masses

The Crisis of Evangelical Christianity Keith C. Sewell,2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orb'd understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century

Evangelicals and Science in Historical Perspective David N. Livingstone,Darryl G. Hart,Mark A. Noll,1999 Comprising papers by such distinguished scholars as John Headley Brooke James R Moore Ronald Numbers and George Marsden this collection shows that questions of science have been central to evangelical history in the United States as well as in Britain and Canada

Faith without Fear Keith Mascord,2025-07-14 Faith without Fear asks whether Christianity has the wherewithal to meet the increasingly acute intellectual and moral challenges currently facing it and whether it can shed the reactive fear which now grips its more conservative forms Major topics of the book include same sex marriage patriarchal push back and sociology of conservatism The book seeks to demonstrate the inadequacy and damaging impact of older ways of reading the Bible and to plot what some will consider a risky way forward for 21st century Christians

Evangelical Dictionary of Theology Walter A. Elwell,2001-05 This thoroughly updated edition of a standard reference

tool covers systematic historical and philosophical theology as well as theological ethics

Old-Earth Creationism on Trail Tim Chaffey, Dr. Jason Lisle, 2008-07-01 Twenty somethings once faithfully attended church. What made them stop? While most said they still believe that the Bible is God's Word, they also said that the idea that the earth is millions of years old was one thing that caused them to doubt the Bible. The crumbling foundation of the church takes a devastating toll on future generations. Therefore, churches must reclaim the historical truth found in Genesis and apply the Bible's authority to every area of life. Ken Ham, President Answers in Genesis. As the modern Church struggles to find a place of relevancy for a new generation that already has massive demands on its time and attention, more and more young people raised in the Church are leaving it, failing to find the answers to their questions of faith and life beset with doubts raised by issues that the Church chooses not to address. Opting to skirt the controversy of Genesis as literal history, the biblical authority of the Holy Word is called into question and reduced to a collection of mere stories. More popularly considered an issue for schools or in the public realm, the conflicting views on the age of the earth also remain a pivotal issue within the Church as it has for over two centuries. Was the Creation week literally six days? Does science really point to an old earth? Does the issue really matter for Christians? Should this issue even be discussed within the Church? Join authors Dr. Jason Lisle and Tim Chaffey as they put forth a case against an old earth interpretation of Scripture. A comprehensive biblical, theological, and scientific critique of old earth creationism, the book presents its compelling testimony in layman's terms to create a powerful debate that leads to unquestionable truth.

Nature and Scripture in the Abrahamic Religions: God, Scripture and the rise of modern science (1200-1700) Jitse M. van der Meer, Scott Mandelbrote, 2008. These volumes describe how the development of the different styles of interpretation found in reading scripture and nature have transformed ideas of both the written word and the created world.

Nature and Scripture in the Abrahamic Religions: 1700-Present Scott Mandelbrote, Jitse van der Meer, 2009-01-31. The four companion volumes of *Nature and Scripture in the Abrahamic Religions* contribute to a contextual evaluation of the mutual influences between scriptural exegesis and hermeneutics on the one hand and practices or techniques of interpretation in natural philosophy and the natural sciences on the other. We seek to raise the low profile this theme has had both in the history of science and in the history of biblical interpretation. Furthermore, questions about the interpretation of scripture continue to be provoked by current theological reflection on scientific theories. We also seek to provide a historical context for renewed reflection on the role of the hermeneutics of scripture in the development of theological doctrines that interact with the natural sciences. Contributors are J. Matthew Ashley, Robert E. Brown, Elizabeth Chmielewski, Edward B. Davis, Henri Wijnandus de Krijff, Marwa Elshakry, Richard England, Menachem Fisch, George Harinck, Bernhard Kleeberg, Scott Mandelbrote, G. Blair Nelson, Alexei V. Nesteruk, Jitse M. van der Meer, Rob P. W. Visser, and William Yarchin.
