Constructing Communities in the Late Roman Countryside Cam Grey, 2011-08-25 This book is the first comprehensive treatment of the small politics of rural communities in the Late Roman world It places the diverse fates of those communities within a generalized model for exploring rural social systems Fundamentally social interactions in rural contexts in the period revolved around the desire of individual households to insure themselves against catastrophic subsistence failure and the need of the communities in which they lived to manage the attendant social tensions inequalities and conflicts A focus upon the politics of reputation in those communities provides a striking contrast to the picture painted by the legislation and the writings of Rome's literate elite when viewed from the point of view of the peasantry issues such as the Christianization of the countryside the emergence of new types of patronage relations and the effects of the new system of taxation upon rural social structures take on a different aspect

A Companion to Priesthood and Holy Orders in the Middle Ages Greg Peters, C. Colt Anderson, 2015-11-02 In *A Companion to Priesthood and Holy Orders in the Middle Ages* a select group of scholars explain the rise and function of priests and deacons in the Middle Ages Though priests were sometimes viewed through the lens of function the medieval priesthood was also defined ontologically those marked by God who performed the sacraments and confected the Eucharist While their role grew in importance medieval priests continued to fulfil the role of preacher confessor and provider of pastoral care As the concept of ordination changed theologically the practices and status of bishops priests and deacons continued to be refined with many of these medieval discussions continuing to the present day

Law and Society in the Age of Theoderic the Great Sean D. W. Lafferty, 2013-07-25 Provides new insights into Rome's collapse challenging long held assumptions that Theoderic's reign was a golden age for Italy

The Civilian Legacy of the Roman Army, 2024-06-24 The Roman army represented an important social and organizational reference model for the Romano Barbarian societies which progressively replaced the Western Empire in the transition from Late Antiquity to Early Middle Ages The great flexibility of the decision making and organizational solutions used by the Roman army allowed the new lords to readapt them and thus maintain power in early medieval Europe for a long time From a perspective ranging from political social and economic history to law anthropology and linguistic this book demonstrates how interesting and fruitful the investigation of this

specific cultural imprint can be in order to gain a better understanding of the origins of the civilization that arose after the fall of the Roman world Contributors are Francesco Borri Fabio Botta Francesco Castagnino Stefan Esders Carla Falluomin Stefano Gasparri Wolfgang Haubrichs Soazick Kerneis Luca Loschiavo Valerio Marotta Esperanza Osaba Walter Pohl Jean Pierre Poly Pierfrancesco Porena Iolanda Ruggiero Andrea Trisciunglio Andrea A Verardi and Ian Wood Romans, Barbarians, and the Transformation of the Roman World Ralph W. Mathisen, Danuta Shanzer, 2016-04-08 One of the most significant transformations of the Roman world in Late Antiquity was the integration of barbarian peoples into the social cultural religious and political milieu of the Mediterranean world The nature of these transformations was considered at the sixth biennial Shifting Frontiers in Late Antiquity Conference at the University of Illinois at Urbana Champaign in March of 2005 and this volume presents an updated selection of the papers given on that occasion complemented with a few others These 25 studies do much to break down old stereotypes about the cultural and social segregation of Roman and barbarian populations and demonstrate that contrary to the past orthodoxy Romans and barbarians interacted in a multitude of ways and it was not just barbarians who experienced ethnogenesis or cultural assimilation The same Romans who disparaged barbarian behavior also adopted aspects of it in their everyday lives providing graphic examples of the ambiguity and negotiation that characterized the integration of Romans and barbarians a process that altered the concepts of identity of both populations The resultant late antique polyethnic cultural world with cultural frontiers between Romans and barbarians that became increasingly permeable in both directions does much to help explain how the barbarian settlement of the west was accomplished with much less disruption than there might have been and how barbarian populations were integrated seamlessly into the old Roman world **The Oxford Handbook of European Legal History** Heikki Pihlajamäki, Markus D. Dubber, Mark Godfrey, 2018-06-28 European law including both civil law and common law has gone through several major phases of expansion in the world European legal history thus also is a history of legal transplants and cultural borrowings which national legal histories as products of nineteenth century historicism have until recently largely left unconsidered The Handbook of European Legal History supplies its readers with an overview of the different phases of European legal history in the light of today's state of the art research by offering cutting edge views on research questions currently emerging in international discussions The Handbook takes a broad approach to its subject matter both nationally and systemically Unlike traditional European legal histories which tend to concentrate on heartlands of Europe notably Italy and Germany the Europe of the Handbook is more versatile and nuanced taking into consideration the legal developments in Europe's geographical fringes such as Scandinavia and Eastern Europe The Handbook covers all major time periods from the ancient Greek law to the twenty first century Contributors include acknowledged leaders in the field as well as rising talents representing a wide range of legal systems methodologies areas of expertise and research agendas **Local Economies?**, 2016-04-26 The Roman economy was operated significantly above subsistence level with production being stimulated by both taxation and

trade Some regions became wealthy on the basis of exporting low value agricultural products across the Mediterranean In contrast it has usually been assumed that the high costs of land transport kept inland regions relatively poor This volume challenges these assumptions by presenting new research on production and exchange within inland regions The papers supported by detailed bibliographic essays range from Britain to Jordan They reveal robust agricultural economies in many interior regions Here some wealth did come from high value products which could defy transport costs However ceramics also indicate local exchange systems capable of generating wealth without being integrated into inter regional trading networks The role of the State in generating production and exchange is visible but often co existed with local market systems Contributors are Alyssa A Bandow Fanny Bessard Michel Bonifay Kim Bowes Stefano Costa Jeremy Evans Elizabeth Fentress Piroska H rshegyi Adam Izdebski Luke Lavan Tamara Lewit Phil Mills Katalin Ottom nyi Peter Sarris Emanuele Vaccaro Agn s Vokaer Mark Whittow and Andrea Zerbin

Transfigurations of Hellenism László Török, 2021-11-29 This book deals with the architecture and visual arts in late antique early Byzantine Egypt as an organic part of the art of the Mediterranean region in the period between the 3rd and 8th centuries The richly illustrated book discusses the survival and transformations of Hellenistic themes and forms in the Roman and late antique periods It also presents a history of Coptic art history Transfigurations of Hellenism is an outstanding addition to this scholarship tracing out in detail the continuity of the Hellenistic tradition in Egyptian art All scholars of late antiquity will find much of interest in this fine work Stanley M Burstein California State University Los Angeles
