

A photograph of two whales swimming underwater in deep blue water. The whale in the foreground is larger and closer to the camera, showing its head, eye, and part of its body. The second whale is further back and slightly to the left, also swimming in the same direction. The water is clear and deep blue, with some light reflecting off the whales' skin.

The Life And Death Of Whales:

The Life and Death of Whales Robert Burton,1980 The Meaning of Life and Death Michael Hauskeller,2019-09-19

What is the point of living If we are all going to die anyway if nothing will remain of whatever we achieve in this life why should we bother trying to achieve anything in the first place Can we be mortal and still live a meaningful life Questions such as these have been asked for a long time but nobody has found a conclusive answer yet The connection between death and meaning however has taken centre stage in the philosophical and literary work of some of the world s greatest writers Fyodor Dostoyevsky Leo Tolstoy Soren Kierkegaard Arthur Schopenhauer Herman Melville Friedrich Nietzsche William James Ludwig Wittgenstein Marcel Proust and Albert Camus This book explores their ideas weaving a rich tapestry of concepts voices and images helping the reader to understand the concerns at the heart of those writers work and uncovering common themes and stark contrasts in their understanding of what kind of world we live in and what really matters in life

Whale Snow Chie Sakakibara,2020-10-06 As a mythical creature the whale has been responsible for many transformations in the world It is an enchanting being that humans have long felt a connection to In the contemporary environmental imagination whales are charismatic megafauna feeding our environmentalism and aspirations for a better and more sustainable future Using multispecies ethnography Whale Snow explores how everyday the relatedness of the I upiat of Arctic Alaska and the bowhead whale forms and transforms the human through their encounters with modernity Whale Snow shows how the people live in the world that intersects with other beings how these connections came into being and most importantly how such intimate and intense relations help humans survive the social challenges incurred by climate change In this time of ecological transition exploring multispecies relatedness is crucial as it keeps social capacities to adapt relational elastic and resilient In the Arctic climate culture and human resilience are connected through bowhead whaling In Whale Snow we see how climate change disrupts this ancient practice and in the process affects a vital expression of Indigenous sovereignty Ultimately though this book offers a story of hope grounded in multispecies resilience **Ahab Unbound**

Meredith Farmer,Jonathan D. S. Schroeder,2022-04-19 Why Captain Ahab is worthy of our fear and our compassion Herman Melville s Captain Ahab is perennially seen as the paradigm of a controlling tyrannical agent Ahab Unbound leaves his position as a Cold War icon behind recasting him as a contingent figure transformed by his environment by chemistry electromagnetism entomology meteorology diet illness pain trauma and neurons firing in ways that unexpectedly force us to see him as worthy of our empathy and our compassion In sixteen essays by leading scholars Ahab Unbound advances an urgent inquiry into Melville s emergence as a center of gravity for materialist work reframing his infamous whaling captain in terms of pressing conversations in animal studies critical race and ethnic studies disability studies environmental humanities medical humanities political theory and posthumanism By taking Ahab as a focal point we gather and give shape to the multitude of ways that materialism produces criticism in our current moment Collectively these readings challenge our

thinking about the boundaries of both persons and nations along with the racist and environmental violence caused by categories like the person and the human Ahab Unbound makes a compelling case for both the vitality of materialist inquiry and the continued resonance of Melville's work Contributors Branka Arsi Columbia U Christopher Castiglia Pennsylvania State U Colin Dayan Vanderbilt U Christian P Haines Pennsylvania State U Bonnie Honig Brown U Jonathan Lamb Vanderbilt U Pilar Martinez Bened U of L Aquila Italy Steve Mentz St John's College John Modern Franklin and Marshall College Mark D Noble Georgia State U Samuel Otter U of California Berkeley Donald E Pease Dartmouth College Ralph James Savarese Grinnell College Russell Sbriglia Seton Hall U Michael D Snediker U of Houston Matthew A Taylor U of North Carolina at Chapel Hill Ivy Wilson Northwestern U
