The Life And Work Of Georg Heym Poet Of Expressionist Berlin:

Poet of Expressionist Berlin Patrick Bridgwater, 1991 Holderlin Buchner Shelley Keats Baudelaire Van Gogh and Munch Bridgwater ends his study with a discussion of Heym's place in the general topography of neo romanticism and German Expressionism and cautions against too strict a confinement within Expressionist categories of the work of one of the major voices of early twentieth century German literature A Study Guide for "Expressionism" Gale, Cengage Learning, 2016 A Study Guide for Expressionism excerpted from Gale's acclaimed Literary Movements for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Literary Movements for Students for all of your research needs **A Companion to the Literature of German Expressionism** Neil H. Donahue, 2005 New essays examining the complex period of rich artistic ferment that was German literary Expressionism **Imperial Culture in Germany, 1871-1918** Matthew Jefferies, 2020-10-01 It has often been suggested that artists and writers in Germany's imperial era shunned social engagement preferring instead apolitical introspection However as Matthew Jefferies reveals whether one looks at the painters poets and architects who helped to create an official imperial identity after 1871 the cultural critics and reformers of the later 19th century or the new generation of cultural producers that emerged in the years around 1900 the social political and cultural were never far apart In this attractively illustrated book Jefferies provides a lively introduction to the principal movements in German high culture between 1871 and 1918 in the context of imperial society and politics He not only demonstrates that Germany's Imperial culture was every bit as fascinating as the much better known Weimar culture of the 1920s but argues that much of what came later has origins in the imperial period Filling a significant gap in the current historiography this study will appeal to all those with an interest in the rich and diverse culture of Imperial Germany **Early Modernism** Christopher Butler, 1994 Early Modernism is a uniquely integrated introduction to the great avant garde movements in European literature music and painting at the beginning of this century from the advent of Fauvism to the development of Dada In contrast to the overly literary focus of previous studies of modernism this book highlights the interaction between the arts in this period It traces the fundamental and interlinked re examination of the languages of the arts brought about by Matisse Picasso Schoenberg Eliot Apollinaire Marinetti Ben and many others which led to radically new techniques such as atonality cubism and collage These changes are set in the context both of the art that preceded them and of a new and profound shift in ideas Theories of the unconscious the association of ideas primitivism and reliance upon an expressionist intuition led to a reshaped conception of personal identity and Butler examines the representation of the modernist self in the work of figures including Mann Joyce Conrad and Stravinsky Accessible and wide ranging the book is lavishly illustrated with over sixty illustrations many in color It provides an elegant and incisive guide to a momentous period in the history of European art Sites of Memory, Sites of Mourning Jay

Winter, 2014-05-15 Jay Winter's powerful study of the collective remembrance of the Great War offers a major reassessment of one of the critical episodes in the cultural history of the twentieth century. Dr Winter looks anew at the culture of commemoration and the ways in which communities endeavoured to find collective solace after 1918. Taking issue with the prevailing modernist interpretation of the European reaction to the appalling events of 1914-18, Dr Winter instead argues that what characterised that reaction was rather the attempt to interpret the Great War within traditional frames of reference. Tensions arose inevitably. *Sites of Memory: Sites of Mourning* is a profound and moving book of seminal importance for the attempt to understand the course of European history during the first half of the twentieth century. **Literary Movements for Students**, 2002 New German Studies, 1992 **Journal of European Studies**, 1992 Literature and ideas from the renaissance to the present Literary Life in German Expressionism and the Berlin Circles Roy F.
