The Light In Britain:

The Light in Britain Grace Cooke,Ivan Cooke,1971 Britain's X-traordinary Files David Clarke,2014-09-25 David Clarke opens The National Archives own X Files to uncover the secret official accounts behind legendary paranormal and extraordinary phenomena From mediums employed by the police to help with psychic crime busting to sea monster sightings reported to the Royal Navy Britain s X traordinary Files brings to light a range of secret documents created by military intelligence and government agencies who have investigated and even used extraordinary phenomena or powers in recent history Each chapter is underpinned by original official records held at The National Archives which throw new light on many rumours and unsolved historical mysteries including the Angels of Mons and other legends of the Great War plus a variety of strange phenomena reported both in the sea and in the air from phantom helicopters to the great sea serpent of the Victorian era The final chapter scrutinises official interest in the infamous Loch Ness Monster of Scotland and the Beast of Bodmin These accounts are supplemented with contextual material gathered from interviews and the author s own investigations making truly eye opening reading for anyone interested in the paranormal **Britain's Sea Mammals** Jon Dunn,Robert Still,Hugh Harrop,2012-12-16 A guide to the sea mammals whales dolphins porpoises and seals found in coastal Britain It features more than 100 photographs and close to 40 detailed illustrations of 34 species of sea mammals paying special attention to the 14 species most readily seen and most likely to be encountered Back cover *Tract for the times. Britain's guilt, Britain's warnings, and Britain's responsibility: the substance of a discourse* Robert Williamson,1852 **Britain's Political Economies** Julian Hoppit,2017-05-03 The Glorious Revolution of 1688 9 transformed the role of parliament in Britain and its empire Large numbers of statutes resulted with most concerning economic activity Julian Hoppit here provides the first comprehensive account of these acts revealing how government affected economic life in this critical period prior to the Industrial Revolution and how economic interests across Britain used legislative authority for their own benefit Through a series of case studies he shows how ideas interests and information influenced statutory action in practice Existing frameworks such as mercantilism and the fiscal military state fail to capture the full richness and structural limitations of how political power influenced Britain s precocious economic development in the period Instead finely grained statutory action was the norm guided more by present needs than any grand plan with regulatory ambitions constrained by administrative limitations and some parts of Britain benefiting much more than others *Report of the Officers Constituting the Light-house Board* United States. Light-House Board,1852 **Britain's Entry into the European Community** Sir David Hannay,2018-07-04 In January 1972 Britain signed the Treaty of Accession to the European Community Sir Con O'Neill a key figure in the negotiations gives an analysis of negotiations which had an impact on Britain s relations with Europe and insights into the processes of multilateral diplomacy **The Politics and Economics of Britain's Foreign Aid** Tim Lankester,2013 The Pergau dam in Malaysia was the most controversial project in the history of British aid Because of its

high cost it was a poor candidate for aid funding It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britaine tm s Parliament and its media and NGOs and the resultant legal case The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britaine tm s aid ministry were correct in their objections to the project Pergau is still talked about as a prime example of how not to do aid Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account At a time when aid budgets are under particular scrutiny it provides a cautionary tale
