The Battle Of The Bismarck Sea:

The Battle of the Bismarck Sea, March 1943 Gregory Phillip Gilbert, 2013 This year marks the 70th anniversary of the Allied attack and destruction of the Japanese forces escorting the Lae Resupply Convoy on 3 March 1943 The Allied victory was so absolute that eight transport ships and four escorting destroyers were sunk for the loss of only six Allied aircraft Fifteen minutes that s all it took to strike a decisive blow in the Pacific War however to many Australians the Battle of the Bismarck Sea is just one of the many battles fought over the course of the World War II While the critical stage of the fighting occurred during a 15 minute window on that early March morning it was the detailed strategic and operational planning that allowed the Allied forces to exploit their increased air superiority over the Japanese and destroy their campaign plans in the Pacific The attack on the convoy was a true show of strength from the Allies not only in terms of control of the air but also in the battle of minds breaking the spirit of the Japanese forces by exposing their strategic weaknesses and effectively ending their threat in the South West Pacific region The Battle of the Bismarck Sea details and analyses the planning and preparation of both Allied and Japanese forces leading up to the battle description of the battle itself and discussion of the aftermath including stunning photographs taken during the fighting by renowned wartime photographer Damien Parer The Air Power Development Centre is pleased to present this concise examination of the Battle of the Bismarck Sea in this year of the 70th anniversary of the battle Back cover *B-25 Mitchell vs Japanese Destroyer* Mark Lardas, 2021-12-23 Throughout the first year of the war in the Pacific during World War II the USAAF was relatively ineffective against ships Indeed warships in particular proved to be too elusive for conventional medium level bombing High level attacks wasted bombs and torpedo attacks required extensive training But as 1942 closed the Fifth Air Force developed new weapons and new tactics that were not just effective they were deadly A maintenance officer assigned to a B 25 unit found a way to fill the bombardier s position with four 0 50 cal machine guns and strap an additional four 0 50s to the sides of the bomber firing forward Additionally skip bombing was developed This called for mast top height approaches flying the length of the target ship If the bombs missed the target they exploded in the water close enough to crush the sides The technique worked perfectly when paired with strafe B 25s Over the first two months of 1943 squadrons perfected these tactics Then in early March Japan tried to reinforce their garrison in Lae New Guinea with a 16 ship convoy eight transports guarded by eight destroyers The Fifth Air Force pounced on the convoy in the Bismarck Sea By March 5 all eight transports and four destroyers had been sunk This volume examines the mechanics of skip bombing combined with a strafing B 25 assessing the strengths and weaknesses of the combatants B 25 versus destroyer and revealing the results of the attacks and the reasons why these USAAF tactics were so successful **The Battle of the Bismarck Sea** Lawrence Cortesi, 1980

was a watershed in the history of military aviation On the heels of victory in the Solomon s Island chain the battle marked the destruction of a major Japanese convoy reinforcing New Guinea by air power alone The Allied forces had completely turned the tide against the Japanese in the Pacific theater at a time when the Japanese still possessed the capability to resist The Japanese planned a thorough and comprehensively joint operation in order to ensure the safe arrival of the convoy Especially critical to the operation were their combined army and navy air forces the Japanese fully understood the lessons of air power and intended to contest allied air superiority The Japanese however had poor command and control inferior technology and tactics and lacked the flexibility to take full advantage of airpower This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

The Battle of the Bismarck Sea Michael Veitch,2021-07-28 Readers look for and admire good writers and great writing They will find it in spades in *The Battle of the Bismarck Sea* The Canberra Times In the thick of World War II during the first week of March 1943 Japan made a final desperate lunge for control of the South West Pacific In the ensuing Battle of the Bismarck Sea a force of land based Australian and American planes attacked a massive convoy of Japanese warships The odds were against them But a devastating victory was won and Japan s hopes of regaining the initiative in New Guinea destroyed More importantly for Australians the victory decisively removed any possibility that Australia might be invaded by Japanese forces It was for us one of the most significant times in our history a week when our future was profoundly in the balance Bestselling author Michael Veitch tells the riveting story of this crucial moment in history how the bravery of young men and experienced fighters renegades and rule followers overcame some of the darkest days of World War II
