Ginn 360 Reading Programme, *The Jethers* J. Coder, 2005-09 The Jethers is a story as old as time itself They travel through time and space to arrive on a distant planet called Earthonia to combat the evil that has infiltrated it They come face to face with creatures that were on the planet long before man ever was created There are many confrontations with the evil one in charge of this planet called Dragoni The Jethers go through many ordeals with giant lizards dinosaurs dragons and other evil creatures The leader of this group of wonderful Jethers is Jehodavu and his son Sonaman You will see a great and powerful power struggle between these two forces of good and evil See how their mascot called Dumpy gets them into all sorts of situations but in the end he will shock you What will happen to the planet of Earthonia How will all creation be affected by all of this *Zayn and the Lost World of Dinosaurs* Leslie Flores, 2025-09-03 A glowing stone A hidden cave A land where dinosaurs still live On his fourth birthday Zayn receives a strange gift from his parents a shimmering blue stone that pulses like a heartbeat That night he dreams of dinosaurs calling his name The stone soon leads Zayn his mom Leslie and his dad Asif into a secret cave and through a doorway to a world lost in time Suddenly the family finds themselves face to face with towering brontosaurus swift raptors and a baby T Rex Zayn names Remy But not everything in Dino Land is safe Fire Mountain an ancient volcano is waking up and if it erupts every dinosaur will be lost forever Armed with only the glowing stone and his own courage Zayn must prove that even the smallest boy can roar the loudest With his family by his side he faces danger makes impossible choices and discovers the true meaning of bravery and love Join Zayn on an epic 300 page journey into a prehistoric world and discover that some adventures never end James Edward Gilmer, 2011-01 100 Year Cover up Revealed We Lived With Dinosaurs makes our past coexistence with dinosaurs effortlessly apparent with a wide variety of proof ranging from artistic to documentary to scientific Although it automatically invalidates evolution by proving coexistence this book takes the extra step of examining and destroying with logic and

science every major assumption and claim made by evolutionists including the absurd notion that dinosaurs and humans missed each other by 65 million years The sub topic that runs throughout the entire book is that for the past century evolutionists have been brainwashing us with bogus claims while actively and passively covering up evidence showing that humans coexisted with dinosaurs and that evolution is basically a hoax 100 Year Cover up Revealed We Lived With Dinosaurs not only proves the reality of coexistence and the fallacy of evolution but also shows how the suppression of these facts has polluted our laboratories classrooms and media Finally this book highlights the scientific and educational implications of its conclusions and offers an intelligent alternative to evolution
