## **The Libyan Kill:**

The Libyan Problem, 1983      *Killing Hope* William Blum, 2003-07-31 Is the United States a force for democracy From China in the 1940s to Guatemala today William Blum presents a comprehensive study of American covert and overt interference by one means or another in the internal affairs of other countries Each chapter of the book covers a year in which the author takes one particular country case and tells the story and each case throws light on particular US tactics of intervention      **The Libyan Revolution** Karen Dabrowska, 2012-01-09 The Libyan revolution has been extensively covered by the international news media since its inception to the toppling of Qadhafis regime But how did the regimes media react to events Karen Dabrowska was the London correspondent of the official Libyan news agency JANA and was in the eye of the storm monitoring the media and covering events in London Perhaps the only Westerner working in a Libyan government institution she kept a diary from the start of NATOs bombing campaign until the ousting of Qadhafi s regime The diary describes what it was like working for the Libyans the office politics the mentality of the officials and the articles she wrote The era of government news agencies may be coming to an end This book provides a unique perspective on the Libyan revolution      *Shooting to Kill* Seumas Miller, 2016 Terrorism the use of military force in Afghanistan Iraq and Syria and the fatal police shootings of unarmed persons have all contributed to renewed interest in the ethics of police and military use of lethal force and its moral justification In this book philosopher Seumas Miller analyzes the various moral justifications and moral responsibilities involved in the use of lethal force by police and military combatants relying on a distinctive normative teleological account of institutional roles His conception constitutes a novel alternative to prevailing reductive individualist and collectivist accounts As Miller argues police and military uses of lethal force are morally justified in part by recourse to fundamental natural moral rights and obligations especially the right to personal self defense and the moral obligation to defend the lives of innocent others Yet the moral justification for police and military use of lethal force is to some extent role specific Both police officers and military combatants evidently have an institutionally based moral duty to put themselves in harm s way to protect others Under some circumstances however police have an institutionally based moral duty to use lethal force to uphold the law and military combatants have an institutionally based moral duty to use lethal force to win wars Two key notions in play are joint action and the natural right to self defense Miller uses a relational individualist theory of joint actions to construct the notion of multi layered structures of joint action in order to explicate organizational action He also provides a novel theory of justifiable killing in self defense Over the course of his book Miller covers a variety of urgent topics such as police shootings of armed offenders police shooting of suicide bombers targeted killing autonomous weapons humanitarian armed intervention and civilian immunity      **Libyan-sponsored Terrorism** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Security and Terrorism, 1986      **The Libyan Revolution and its Aftermath** Peter Cole, Brian McQuinn, 2015-01-02 This book offers a novel incisive and wide ranging account of Libya s 17 February

Revolution by tracing how critical towns communities and political groups helped to shape its course Each community whether geographical e g Misrata Zintan tribal communal e g Beni Walid or political e g the Muslim Brotherhood took its own path into the uprisings and subsequent conflict of 2011 according to their own histories and relationship to Muammar Qadhafi s regime The story of each group is told by the authors based on reportage and expert analysis from the outbreak of protests in Benghazi in February 2011 through to the transitional period following the end of fighting in October 2011 They describe the emergence of Libya s new politics through the unique stories of those who made it happen or those who fought against it The Libyan Revolution and its Aftermath brings together leading journalists academics and specialists each with extensive field experience amidst the constituencies they depict drawing on interviews with fighters politicians and civil society leaders who have contributed their own account of events to this volume The Socialite who Killed a Nazi with Her Bare Hands William McDonald,2012-01-01 From the famous including Steve Jobs and Mona Simpson to the not so famous including Arch West the inventor of the Dorito this riveting collection of the 164 best obituaries from The New York Times written by top journalists is organized chronologically Original **President's Kill List** Luca Trenta,2024-05-31 From Fidel Castro to Qassem Soleimani the US government has been involved in an array of assassinations and assassination attempts against foreign leaders and officials The President s Kill List reveals how the US government has relied on a variety of methods from the use of poison to the delivery of sniper rifles and from employing hitmen to simply laying the groundwork for local actors to do the deed themselves It shows not only how policymakers decided on assassination but also the level of Presidential control over these decisions Tracing the history of the US government s approach to assassination the book analyses the evolution of assassination policies and for the first time reveals how successive administrations through private justifications and public legitimations ensured assassination remained an available tool The Illegal War on Libya Cynthia McKinney,2012-07-03 In 2011 former Congresswoman and 2008 Green Party candidate for President Cynthia McKinney took a delegation of observers to Libya to monitor NATO s purported humanitarian intervention Prefaced by Ramsey Clark this collection of essays includes scholarly and legal analysis as well as personal accounts by witnesses to the NATO assault on a helpless civilian population it had a UN mandate to protect and the massive media propaganda campaign that made it possible It responds to the many questions left unanswered by a complicit mainstream media such as Why Libya not Bahrain Yemen or Egypt What was life in Libya like under Qadhafi What is the truth about the so called Black Mercenaries What was the role of Western NGOs and the International Criminal Court What about Africom s Plans for Africa What did it have to do with Libya a independent central bank its oil its plans for an African currency its efforts to free African states from the coils of the Bretton Woods Institutions Cynthia McKinney and other contributors to this volume were in Libya during the period of the NATO bombardment of Libyan cities and were among the few independent voices to report on the tragedy **When Doctors Kill** Joshua A. Perper,Stephen J. Cina,2010-08-12 It would come as no surprise that many readers may be shocked

and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly antithetical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don't want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant biological machine to be marveled at then dissected
