Johnson, 2002-05-30 A collected volume which addresses all aspects of Wollstonecraft's momentous and tragically brief career *Mary Wollstonecraft and the Feminist Imagination* Barbara Taylor, 2003-03-13 In the two centuries since Mary Wollstonecraft published A Vindication of the Rights of Woman 1792 she has become an icon of modern feminism a stature that has paradoxically obscured her real historic significance In this in depth 2003 study of Wollstonecraft's thought Barbara Taylor develops an alternative reading of her as a writer steeped in the utopianism of Britain's radical Enlightenment Wollstonecraft's feminist aspirations Taylor shows were part of a revolutionary programme for universal equality and moral perfection that reached its zenith during the political upheavals of the 1790s but had its roots in the radical Protestant Enlightenment Drawing on all of Wollstonecraft's works and locating them in a vividly detailed account of her intellectual world and troubled personal history Taylor provides a compelling portrait of this fascinating and profoundly influential thinker **Mary Wollstonecraft and the Critics, 1788-2001** Harriet Devine, 2003 *The Social Imagination of the Romantic Wife in Literature* Linda L. Reesman, 2024-11-22 The emergence of social change in the daily

lives of English society appeared most noticeably through the Romantic era response of human emotions to a period of reason that has defined the era of Enlightenment scientifically and philosophically Remarkably the dramatic political shift that occurred in 1789 from a French monarchy to a constitutional democracy foreshadowed social changes to the family unit that were more slowly evolving throughout England during the eighteenth century An intellectual movement to educate all members of society strengthened efforts to loosen ecclesiastical control allowing more secular definitions of social roles to emerge The nature of marriage during this period in England is central to understanding how the marriage covenant became a widely accepted civil contract Examining the sentiments of passion and virtue the dynamics of traditional marriage emerge through newly established perspectives The role of the wife as a Romantic era concept tells the story of two women through their married lives and literary identities The social imagination provides a new perspective on domestic concerns to illuminate a feminine aspect of the literary market through an understanding of the ordinary wife among female writers Moreover a specific focus on marriage virtue and friendship as seen through two relationships examines individuals who define both a traditional and a non conforming approach to their domestic lives Two husbands who were political and religious activists with wives who were atypical domestics were chosen to exemplify the effects of social change on their particular lives and marital roles in an expanding literary world
