end of World War I to his emigration from Germany in 1933 in the wake of Hitler's rise to power. Drawing on a wealth of rare archival evidence much of it never before published this book offers the most nuanced picture yet of Einstein's complex and sometimes stormy relationship with Jewish nationalism. Ze'ev Rosenkranz sheds new light on Einstein's encounters with prominent Zionist leaders and reveals exactly what Einstein did and didn't like about Zionist beliefs, objectives and methods. He looks at the personal, cultural and political factors that led Einstein to support certain goals of Jewish nationalism, his role in the birth of the Hebrew University, his impressions of the emerging Jewish settlements in Palestine and his reaction to mounting violence in the Arab-Jewish conflict. Rosenkranz explores a host of fascinating questions such as whether Zionists sought to silence Einstein's criticism of their movement, whether Einstein was the real manipulator and whether this Zionist icon was indeed a committed believer in Zionism or an iconoclast beholden to no one. A Matter of Degrees Gino Segre, 2003-07-01 In a wonderful synthesis of science, history and imagination Gino Segre, an internationally renowned theoretical physicist, embarks on a wide-ranging exploration of how the fundamental scientific concept of temperature is bound up with the very essence of both life and matter. Why is the internal temperature of most mammals fixed near 98.6? How do geologists use temperature to track the history of our planet? Why is the quest for absolute zero and its quantum mechanical significance the key to understanding superconductivity? And what can we learn from neutrinos, the subatomic messages from the sun that may hold the key to understanding the birth and death of our solar system? In answering these and hundreds of other temperature-sensitive questions Segre presents an uncanny view of the world around us.

**Developing a Christian Worldview of the Problem of Evil** Charles W. Colson, Nancy Pearcey, 2001 Each of these three books *Developing a Christian Worldview of Science and Evolution*, *Developing a Christian Worldview of the Problem of Evil* and *Developing a Christian Worldview of the Christian in Today's Culture* is drawn from Colson's highly successful *How Now Shall We Live*. Shorter in length and accessible to readers, the *Developing a Christian Worldview* series is ideal for small group study and classroom use. Each chapter begins with pre-reading questions and each study session is made up of newly written discussion questions, role-playing activities and challenges to implement key insights. All are designed to help readers grasp Colson's arguments and learn how to use the points effectively with non-Christians. How Now Shall We Live? Charles Colson, Nancy Pearcey, 2011-07-14 2000 Gold Medallion Award winner Christianity is more than a personal relationship with Jesus Christ. It is also a worldview that not only answers life's basic questions: Where did we come from and who are we? What has gone wrong with the world? What can we do to fix it? but also shows us how we should live as a result of those answers. *How Now Shall We Live* gives Christians the understanding, the confidence and the tools to confront the world's bankrupt worldviews and to restore and redeem every aspect of contemporary culture: family, education, ethics, work, law, politics, science, art, music. This book will change every Christian who reads it. It will change the church in the new millennium.
