The Life of Frederick Froebel: Founder of Kindergarten by Denton Jacques Snider (1900) Johannes Froebel-Parker, 2013-11-15 In 1900 Denton Jacques Snider wrote about Friedrich Froebel and his life experiences which led to the founding of the first kindergarten. Over a century later a Froebel family member and author of two children's books about Froebel and kindergarten expands the publication designed for readers in the Victorian age to make it a timeless reference and tribute to his Oheim, an ancient German term for maternal uncle. Educators, kindergarten teachers, parents of kindergarten age children, and readers interested in German history will enjoy its notes, explanations, and illustrations never seen by Denton's readership.

The Life of Frederick Froebel Denton Jacques Snider, 2015-07-12 Excerpt from *The Life of Frederick Froebel Founder of the Kindergarten*: Not long before the close of his days Froebel expressed himself thus to his most intimate friend Middendorf: "I recognize my life to be a unity through and through; it has been long since any such life has appeared among men; only under unusual circumstances has it been able to work itself out to its completeness. One great whole he conceives it to be, with each part joined to the other by a line of inner connection; thus his principle of education was the deep underlying principle of his life which he drew out of himself and made real in his vocation. Moreover, he holds strongly to the idea of development, the self-unfolding of the human spirit into or toward perfection. The doctrine which he applies to the child is to be applied to his own biography; for that doctrine is at bottom the true movement of his own soul as it realizes itself in the events of his career. His life will not only illustrate his principle of the unfolding of the child but will be seen to be the very center and source of that principle from beginning to end; it shows a man's own spiritual evolution projecting itself into his educational work."
